**Foundations of Criminal Justice** Stephen S. Owen, 2019-07-15 What is law What is deviance What is justice How is justice achieved through law punishment and criminal justice agencies Now in its third edition Foundations of Criminal Justice uses a unique approach that provides students with the framework and the intellectual tools that they will need in order to critically analyze and evaluate the nature sources scope purposes and practical limitations of the criminal justice system This is the only introductory survey text that moves beyond a description of the criminal justice system helping students understand the role of criminal justice in their lives as criminal justice practitioners and as active citizens Free Market Criminal Justice Darryl K. Brown, 2016 Free Market Criminal Justice explains how faith in democratic politics and free markets has undermined the rule of law in US criminal process It argues that to strengthen the rule of law US criminal justice needs less democracy fewer market mechanisms and more law **Power Without Constraint** Chris Edelson, 2016-05-11 As a presidential candidate Barack Obama criticized the George W Bush administration for its unrestrained actions in matters of national security In secret Justice Department memos President Bush's officials had claimed for the executive branch total authority to use military force in response to threats of terrorism They set aside laws made by Congress even criminal laws prohibiting torture and warrantless surveillance Candidate Obama promised to restore the rule of law and make a clean break with the Bush approach President Obama has not done so Why In a thorough comparison of the Bush and Obama administrations national security policies Chris Edelson demonstrates that President Obama and his officials have used softer rhetoric and toned down legal arguments but in key areas military action surveillance and state secrets they have simply found new ways to assert power without meaningful constitutional or statutory constraints Edelson contends that this legacy of the two immediately post 9 11 presidencies raises crucial questions for future presidents Congress the courts and American citizens Where is the political will to restore a balance of powers among branches of government and adherence to the rule of law What are the limits of authority regarding presidential national security power Have national security concerns created a permanent shift to unconstrained presidential power *The Welsh Criminal Justice System* Robert Jones, Richard Wyn Jones, 2022-10-15 This study represents the first systematic attempt to explore the functioning of the policing and criminal justice system in post devolution Wales Its particular relevance is underscored by the revelation that Wales has the highest imprisonment rate in western Europe Drawing on official data as well as extensive interviews with senior figures this book represents the first systematic exploration of the operation of the justice system in Wales across the jagged edge of devolved and non devolved functions There remains little understanding of how the justice system operates in the anomalous circumstances of post devolution Wales This book aims to fill this gap in understanding and concludes with an assessment of the proposals of the Commission on Justice in Wales for reform Neoliberalism, State-Corporate Power and Regulatory Failure Rhiannon Bandiera, 2025-05-23 Based on over a

decade of research this book examines the social harms of Australian prescription and non prescription medicine regulation and how these ultimately stem from neoliberalism and its reinforcement of state and corporate power Neoliberalism shapes state and corporate power regulation and the harms resulting from regulatory failure yet the links between these themes are rarely discussed Drawing on the concept of hegemonic neoliberal governmentality this book critically examines Australian medicine regulation and the harms resulting from its failure in areas such as medicine quality safety and efficacy direct to consumer advertising and marketing directed at health professionals It traces these harms through the colonial foundations and evolution of medicine regulation in Australia exploring both regulatory failure and the attempts at reforming this regulatory system It argues that neoliberalism is not regulatable and reinforces and sustains itself empowering the state and corporations while disempowering the public and those representing its interests Thus reducing its harms is only achievable through broader transformative change rather than by reforming and thereby continuing to work within the existing neoliberal capitalist system Neoliberalism State Corporate Power and Regulatory Failure will be of value to practitioners members of the public and private sector and academics active in the fields of state corporate and state corporate crime social harm and regulation as well as to those new to the study of medicine related harms It will also be of interest to all those concerned about their health and the medicines they use *Bowker's Law Books and Serials in Print* ,1995 The Times Index ,2011 Indexes the Times Sunday times and magazine Times literary supplement Times educational supplement Times educational supplement Scotland and the Times higher education supplement *Wisconsin Magazine of History* ,2013 *Subject Guide to Books in Print* ,1997 *Current Law Index* ,1989
