Memorandum Natural Science November 2013 Exam:

Mentoring in STEM Through a Female Identity Lens: Heroes Make a Difference for Women Cecilia (Ceal) D.

Craig, 2024-09-24 With the stagnant low percentages of women in STEM careers identifying practices to satisfy the growing need for professionals in those fields is critical to improve recruitment and retention Supportive relationships like mentors and sponsors have been shown to both inspire women to pursue those careers and to help them succeed in them This book explores how developing supportive connections helps students faculty and teachers see STEM professions as being a place for women to grow and succeed Early chapters provide essential mentor characteristics and explore engineering education gender inequity from a teacher's perspective of stereotypes stereotype threat and bias offering culturally relevant teacher mentoring approaches to promote equitable pre college engineering education Middle chapters describe K 12 mentoring programs mentorship initiatives empowering young South African Women and girls to advance to mathematical related careers programs methods and activities to achieve the desired goal of making young students aspire to become scientists and engagement year round in grades 9 12 combined with 40 years of iterative evaluation created a finely honed enrichment program for low income Black women in urban public high schools A longitudinal undergraduate mentoring program for mentoring early college students in Louisiana provides further insights in that section The final four chapter section describes mentoring programs for professors and teachers reciprocal mentor relationships and role shifting within an informal peer mentoring group differences between mentoring relationships and sponsoring relationships within academia the impact of culturally responsive mentorship CRM on the development and expression of a pre service teacher's woman of science identity and a program that aims to recruit and retain STEM pre service teachers and STEM teachers of color With several longitudinal mentoring programs several programs for women of color this book fills a gap to help grow the numbers of women in STEM

America's Search for Security Sean Kay, 2014-07-22 This book details the ways in which America's ascendancy to global superpower status was the result of its dueling foreign policy philosophies and forces an historically expansive idealism balanced with an equally constant realist restraint In America's Search for Security Sean Kay surveys major historical trends in American foreign policy and provides a new context for thinking about America's rise to power from the founding period through the end of the Cold War It details the post Cold War rise of idealist foreign policy goals and the costs of abandoning realist roots analyzing in depth the wars in Iraq and Afghanistan as examples of what disappointing if not disastrous outcomes can befall America abroad when foreign policy objectives are muddled unclear and fail to remain grounded in what historically has made America an unquestionable world power This book also focuses on America's recent pivot to Asia and efforts to restore a realist balance abroad and at home in the second Obama administration concluding with a look at what the future of American power will look like in a rapidly evolving world in need of newer more modernized and adaptable forms of leadership Tracing the tension between idealism and realism Kay provides a detailed explanation of the

rise of a post Cold War idealist consensus in Washington D C and shows how that culminated in a return to realism in both the 2013 debates over intervention in Syria and the 2014 crisis with Russia
