Award 2004 San Antonio Conservation Society Citation 2005 La familia de Le n was one of the foundation stones on which  
Texas was built Mart n de Le n and his wife Patricia de la Garza left a comfortable life in Mexico for the hardships and  
uncertainties of the Texas frontier in 1801 Together they established family ranches in South Texas and in 1824 the town of  
Victoria and the de Le n colony on the Guadalupe River along with Stephen F Austin s colony the only completely successful  
colonization effort in Texas They and their descendents survived and prospered under four governments as the society in  
which they lived evolved from autocratic to republican and the economy from which they drew their livelihood changed from  
one of mercantile control to one characterized by capitalistic investments Combining the storytelling flair of a novelist with a  
scholar s concern for the facts Ana Carolina Castillo Crimm here recounts the history of three generations of the de Le n  
family She follows Mart n and Patricia from their beginnings in Mexico through the establishment of the family ranches in  
Texas and the founding of the de Le n colony and the town of Victoria Then she details how after Mart n s death in 1834  
Patricia and her children endured the Texas Revolution exile in New Orleans and Mexico expropriation of their lands and

after returning to Texas years of legal battles to regain their property Representative of the experiences of many Tejanos whose stories have yet to be written the history of the de Le n family is the story of the Tejano settlers of Texas     Education Reform in the American States Jerry McBeath,Maria Elena Reyes,Mary Ehrlander,2008-04-01 Education Reform in the American States is a timely evaluation of the accountability movement in American public education culminating in the No Child Left Behind Act federal legislation of 2002 The authors treat the current accountability movement placing it in historical context and addressing the evolution in public education policymaking from the overwhelming emphasis on state and local discretion to increasing federal oversight and mandates related to federal funding They provide case studies of the educational accountability movements in nine states and analyze the factors and forces which explain progress in achievement levels as measured on standardized tests and the states prospects for meeting their NCLB targets The book and the individual case studies acknowledge the merits of NCLB while exposing several significant flaws and unintended harmful consequences of the act particularly its incentives for states to lower their standards in order to meet annual yearly progress targets and its threat to withdraw federal funds from districts with the highest percentage of disadvantaged students The audience for this study includes local state and federal education policy makers administrators and instructors in schools of education and other teaching programs educators and the general public     Directory of Brokers and Salesmen California.
