*A Simple Explanation of Absolutely Everything* Cyd Ropp, Ph.D.,2015-03-17 *A Simple Explanation of Absolutely Everything* is an entirely original philosophy that shows how ancient spiritual traditions harmonize with cutting edge scientific discoveries The Simple Explanation proceeds from the fundamental idea that the ground state of creation is consciousness Using only four basic principles A Simple Explanation explains our universal cosmology as a fractal pattern of consciousness that repeats itself in endless cycles of organization and cooperation from the smallest quanta through the largest astronomical objects A Simple Explanation of Absolutely Everything gives the reader new clarity to classical spiritual concepts such as centering God and The Golden Rule while at the same time explaining new ideas like fractals and quantum entanglement This most ecumenical and inclusive philosophy is able to bridge science with world religions by making sense of esoteric passages in such diverse works as the Bible and the Tao Te Ching and relating them to one simple to understand theory of everything Back cover

*Virus of the Mind* Richard Brodie,2009-05-15 *Virus of the Mind* is the first popular book devoted to the science of memetics a controversial new field that transcends psychology biology anthropology and cognitive science Memetics is the science of memes the invisible but very real DNA of human society In *Virus of the Mind* Richard Brodie carefully builds on the work of scientists Richard Dawkins Douglas Hofstadter Daniel Dennett and others who have become fascinated with memes and their potential impact on our lives But Richard goes beyond science and dives into the meat of the issue is the emergence of this new science going to have an impact on our lives like the emergence of atomic physics did in the Cold War He would say the impact will be at least as great While atomic bombs affect everybody's life viruses of the mind touch lives in a more personal and more pernicious way Mind viruses have already infected governments educational systems and inner cities leading to some of the most pervasive and troublesome problems of society today youth gangs the welfare cycle the deterioration of the public schools and ever growing government bureaucracy Viruses of the mind are not a future worry they are here with us now and are evolving to become better and better at their job of infecting us The recent explosion of mass media and the information superhighway has made the earth a prime breeding ground for viruses of the mind Will there be a mental plague Will only some of us survive with our free will intact Richard Brodie weaves together science ethics and current events as he raises these and other very disturbing questions about memes

**Stars in Our Eyes** Angela Ndalians,Charlotte Henry,2002-03-30 The media star has become a powerful almost unparalleled cultural sign even as the star system has undergone radical transformation since the era of the Hollywood studio system Today's film industry continues to market and promote its products through actors in ways that seek to capture the often elusive quality that a star can embody Using contemporary stars such as Robert De Niro Keanu Reeves Arnold Schwarzenegger and Dennis Hopper this anthology of essays applies a variety of theoretical tools in its attempt to understand how we interpret stars and how we can begin to understand their cultural significance Likewise the study explores how the star system has become an

increasingly complex phenomenon within society at large extending its impact beyond the cinema into music sports and fashion Many of the essays collected here consider this shift and examine how personae including the director Sam Peckinpah the royalty Princess Diana and even the digital star Lara Croft have captured the cultural imagination and have come to attain qualities as star like as those of the silver screen      **The Encyclopedia Britannica** ,1890      **The Encyclopaedia Britannica** ,1890      Notes & Queries for Somerset and Dorset Hugh Norris,Charles Herbert Mayo,Frederic William Weaver,1927      How to Make Advertisements Appealing S.
