Memoranda Of Geography Paper 1 November 2014 Grade 1:

Asymmetric Crisis in Europe and Possible Futures Johannes Jäger, Elisabeth Springler, 2015-04-10 The crisis in Europe is often discussed as a crisis of European integration or a crisis of national economies within Europe Both the methodological Europeanism and methodological nationalism miss out the important links between economic and political processes at different spatial scales within Europe and therefore asymmetries and phenomena of uneven development In addition a discussion of possible scenarios which systematically addresses the implications of anti crisis policies is missing This volume seeks to close this gap by systematically integrating the analysis of economic policy or technical solutions to the crisis within a broader framework of political economy It argues that combining critical political economy approaches and post Keynesian perspectives allows for a systematic understanding of the economic and political dimensions of the crisis Although both approaches have the capacity to deal with asymmetries and uneven development the heterogeneity in Europe has been an often largely neglected dimension of analysis However this recent crisis has shown that this is an essential dimension which has to be addressed in order to better understand the dynamics of European development and integration Hence this book aims to deal with asymmetries in Europe and to bridge the gap between the two perspectives This work will initiate an integrative debate that is crucial for a deeper understanding of the current crisis and is an important resource for all students and scholars of IPE European political economy and European politics *America's Moment* Rework America, 2015-06-15 It is time for a new conversation Amid the biggest economic transformation in a century the challenge of our time is to make sure that all Americans benefit from the wave of digital revolutions around the world that have permeated and upended modern life Yet today's economic arguments seem stuck We need a new vision of a hopeful future and a new action agenda So many Americans are uncertain about the future How can there be so many paths to opportunity with so few people traveling them As a nation we have to understand what is required to help Americans succeed now and how to prepare our country for what comes next We have been here before A hundred years ago America experienced the greatest economic transformation and technological revolution in its history The transformation of the past twenty years as the world has moved through the information era into the digital age has turned our life and work upside down once again It is a time of tremendous change but also of tremendous possibility Rework America is a group of American leaders who know from experience the challenges we face and the potential solutions In America's Moment they suggest a practical agenda for an exciting future It is illustrated by people who are already showing the way and includes actions Americans can take today in their own communities preparing people to succeed using the reach of the Internet and data to innovate jobs and to reach new markets all over the world using technology to match employers and workers and transitioning to a no collar working world neither blue collar nor white collar Set against the history of how Americans succeeded once before in remaking their country America's Moment is about the future It describes how the same forces of change technology and a networked world

Congress,2017-10-24 Research Handbook on Digital Transformations F. Xavier Olleros,Majlinda Zhegu,2016-09-30 The digital transition of our economies is now entering a phase of broad and deep societal impact While there is one overall transition there are many different sectoral transformations from health and legal services to tax reports and taxi rides as well as a rising number of transversal trends and policy issues from widespread precarious employment and privacy concerns to market monopoly and cybercrime They all are fertile ground for researchers as established laws and regulations organizational structures business models value networks and workflow routines are contested and displaced by newer alternatives This Research Handbook offers a rich and interdisciplinary synthesis of some of the current thinking on the digital transformations underway Empire's Labor Adam D. Moore,2019-11-15 In a dramatic unveiling of the little known world of contracted military logistics Adam Moore examines the lives of the global army of laborers who support US overseas wars Empire s Labor brings us the experience of the hundreds of thousands of men and women who perform jobs such as truck drivers and administrative assistants at bases located in warzones in the Middle East and Africa He highlights the changes the US military has undergone since the Vietnam War when the ratio of contractors to uniformed personnel was roughly 1 6 In Afghanistan it has been as high as 4 1 This growth in logistics contracting represents a fundamental change in how the US fights wars with the military now dependent on a huge pool of contractors recruited from around the world It also Moore demonstrates has social economic and political implications that extend well beyond the battlefields Focusing on workers from the Philippines and Bosnia two major sources of third country national TCN military labor Moore explains the rise of large scale logistics outsourcing since the end of the Cold War describes the networks infrastructures and practices that span the spaces through which people information and goods circulate and reveals the experiences of foreign workers from the hidden dynamics of labor activism on bases to the economic and social impacts these jobs have on their families and the communities they hail from Through his extensive fieldwork and interviews Moore gives voice to the agency and aspirations of the many thousands of foreigners who labor for the US military Thanks to generous funding from UCLA and its participation in TOME Toward an Open Monograph Ecosystem the ebook editions of this book are available as Open Access

The Rise and Rise of Illegal Ticket Touting Alessandro Moretti, 2023-02-10 This book presents an ethnographic study of contemporary ticket touts in the UK. Despite the recent interest in the topic of black market ticket sales, media coverage and parliamentary interventions over the last ten years have revealed a widespread lack of knowledge with regard to the phenomenon of touting and the players engaging in the practice. *The Rise and Rise of Illegal Ticket Touting* sheds light on the world of touting and delivers an authentic picture of the individuals involved, of their methods, values and motivations for performing ticket touting as an organised entrepreneurial deviant activity. The touts' varied methods of buying and selling tickets, the hierarchical structures and strict ethos of their criminal organisations and their specific *modi operandi* for evading detection and arrest, both on the streets and online, are focal points of the study. Of equal importance are the touts' attitudes, perceptions and adaptations to or outright dismissal of society's legal and moral frameworks. This book illuminates why historic and renewed attempts to challenge ticket touting have been unsuccessful, focusing on inadequate legislation, a lack of enforcement and the widespread corruption and exploitable loopholes that exist within the official primary ticket market. An accessible and compelling read, *The Rise and Rise of Illegal Ticket Touting* will appeal to students and scholars of criminology, sociology, social policy, policing and all those with an interest in live music and sport and the hidden practices that lurk beneath the surface.
