Reeves,2017-05-23 Dream Hoarders sparked a national conversation on the dangerous separation between the upper middle class and everyone else Now in paperback and newly updated for the age of Trump Brookings Institution senior fellow Richard Reeves is continuing to challenge the class system in America In America

everyone knows that the top 1 percent are the villains The rest of us the 99 percent we are the good guys Not so argues Reeves The real class divide is not between the upper class and the upper middle class it is between the upper middle class and everyone else The separation of the upper middle class from everyone else is both economic and social and the practice of opportunity hoarding gaining exclusive access to scarce resources is especially prevalent among parents who want to perpetuate privilege to the benefit of their children While many families believe this is just good parenting it is actually hurting others by reducing their chances of securing these opportunities There is a glass floor created for each affluent child helped by his or her wealthy stable family That glass floor is a glass ceiling for another child Throughout *Dream Hoarders* Reeves explores the creation and perpetuation of opportunity hoarding and what should be done to stop it including controversial solutions such as ending legacy admissions to school He offers specific steps toward reducing inequality and asks the upper middle class to pay for it Convinced of their merit members of the upper middle class believes they are entitled to those tax breaks and hoarded opportunities After all they aren't the 1 percent The national obsession with the super rich allows the upper middle class to convince themselves that they are just like the rest of America In *Dream Hoarders* Reeves argues that in many ways they are worse and that changes in policy and social conscience are the only way to fix the broken system     *Papers by Command, Cmnd* ,1972     Yearbook of International Organizations 2013-2014 (Volumes 1a-1b) Union Of International Associations,Union of International Associations,2013-06-21 Volume 1 A and B covers international organizations throughout the world comprising their aims activities and events     English Education at the Tertiary Level in Asia Eun Sung Park,Bernard Spolsky,2017-03-16 This is the third volume of a trilogy on English Language education in Asia within the Routledge Critical Studies in Asian Education Put together by editors and contributors selected by Asia TEFL this book provides a timely and critical review of the current trends in tertiary level English education in Asia It foregrounds the developments and trends policies and implementation as well as research and practice Written by ELT scholars and educational leaders this book presents articles on China Hong Kong India Japan Korea Malaysia the Philippines Singapore Thailand and Vietnam While the authors focus on their own local issues providing an overview of the state of tertiary English teaching in their respective territories they also provide insights from their successes and failures which can help inspire solutions to similar challenges faced internationally in the field Chapters in the book include Heading toward the global standardization of English education in Korean universities English in tertiary education in India A Janus faced perspective with special reference to University of Delhi Developing English language skills in the Singapore higher education context ELT at tertiary institutions in China A developmental perspective This book will be valued by administrators researchers and scholars interested in bilingualism language policy and planning in higher education
