Memorandum Geography November 2014 Paper Grade 1:

Asymmetric Crisis in Europe and Possible Futures Johannes Jäger, Elisabeth Springler, 2015-04-10 The crisis in Europe is often discussed as a crisis of European integration or a crisis of national economies within Europe Both the methodological Europeanism and methodological nationalism miss out the important links between economic and political processes at different spatial scales within Europe and therefore asymmetries and phenomena of uneven development In addition a discussion of possible scenarios which systematically addresses the implications of anti crisis policies is missing This volume seeks to close this gap by systematically integrating the analysis of economic policy or technical solutions to the crisis within a broader framework of political economy It argues that combining critical political economy approaches and post Keynesian perspectives allows for a systematic understanding of the economic and political dimensions of the crisis Although both approaches have the capacity to deal with asymmetries and uneven development the heterogeneity in Europe has been an often largely neglected dimension of analysis However this recent crisis has shown that this is an essential dimension which has to be addressed in order to better understand the dynamics of European development and integration Hence this book aims to deal with asymmetries in Europe and to bridge the gap between the two perspectives This work will initiate an integrative debate that is crucial for a deeper understanding of the current crisis and is an important resource for all students and scholars of IPE European political economy and European politics **A Global Idea** Mayssoun

Sukarieh, 2023-08-15 A Global Idea outlines how youth as shown by the Arab Spring uprisings and subsequent state responses became a prominent social and political category during the first two decades of the twenty first century in the Middle East Drawing on ethnographic fieldwork interview data and textual analysis Mayssoun Sukarieh explains that the spread of youth as an important category is linked to the operation of a global youth development complex a diverse transnational network of state private sector civil society and international development aid organizations that worked through key urban areas such as Washington DC Amman and Dubai In its analysis of the arrival extension and embedding of the youth development complex in the Middle East during this period A Global Idea addresses a broader question that is of global and not just regional concern How are certain ideas that are central to the working and reproduction of global capitalism able to travel the world so that they are found virtually everywhere **Taken For A Ride** Matteo

Rizzo, 2017-05-19 How does public transport work in an African city under neoliberalism Who owns what in it Who has the power to influence its shape and changes in it over time What does it mean to be a precarious and informal worker in the private minibuses that provide public transport in Dar es Salaam These are the main questions that inform this in depth case study of Dar es Salaam s public transport system over more than forty years The growth of cities and informal economies are two central manifestations of globalization in the developing world Taken for a Ride addresses both drawing on long term fieldwork in Dar es Salaam Tanzania and charting its public transport system s journey from public to private provision This

new addition to the Critical Frontiers of Theory Research and Practice in International Development Studies series investigates this shift alongside the increasing deregulation of the sector and the resulting chaotic modality of public transport. It reviews state attempts to regain control over public transport and documents how informal wage relations prevailed in the sector. The changing political attitude of workers towards employers and the state is investigated from an initial incapacity to respond to exploitation to the political organisation and unionisation which won workers concessions on labour rights. A longitudinal study of workers throws light on patterns of occupational mobility in the sector and the political and economic interests that shaped the introduction of Bus Rapid Transit in Dar es Salaam and local resistance to it are analysed. Taken for a Ride reveals the political economy of public transport exposing the limitations of market fundamentalist and post colonial scholarship on economic informality, the urban experience in developing countries and the failure to locate the agency of the urban poor within their economic and political structures. It is both a contribution and a call for the contextualised study of actually existing neoliberalism.

America's Moment Rework America, 2015-06-15 It is time for a new conversation. Amid the biggest economic transformation in a century, the challenge of our time is to make sure that all Americans benefit from the wave of digital revolutions around the world that have permeated and upended modern life. Yet today's economic arguments seem stuck. We need a new vision of a hopeful future and a new action agenda. So many Americans are uncertain about the future. How can there be so many paths to opportunity with so few people traveling them? As a nation, we have to understand what is required to help Americans succeed now and how to prepare our country for what comes next. We have been here before. A hundred years ago, America experienced the greatest economic transformation and technological revolution in its history. The transformation of the past twenty years, as the world has moved through the information era into the digital age, has turned our life and work upside down once again. It is a time of tremendous change but also of tremendous possibility. Rework America is a group of American leaders who know from experience the challenges we face and the potential solutions. In America's Moment, they suggest a practical agenda for an exciting future. It is illustrated by people who are already showing the way and includes actions Americans can take today in their own communities, preparing people to succeed using the reach of the Internet and data to innovate jobs and to reach new markets all over the world using technology to match employers and workers and transitioning to a no collar working world, neither blue collar nor white collar. Set against the history of how Americans succeeded once before in remaking their country, America's Moment is about the future. It describes how the same forces of change, technology and a networked world can become tools that can open opportunity to everyone.

Brexit and After Kumiko Haba, Martin Holland, 2020-12-12 This book makes a new departure from others on the subject. Not only does it analyze Brexit from the domestic point of view in the UK, democracy, social analysis and construction of new institutionalization with the EU, it extends the analysis externally and reconsiders the EU and UK relationship with Asia and the implications for international relations and a new world order.

From this foundation this book presents a broad and diverse spectrum of views concerning Brexit and the EU. For these reasons it serves as an original and excellent textbook for undergraduate and graduate students as well as for researchers of the EU and international relations. Contributions to this volume are from the European Union Studies Association (EUSA) Asia Pacific Tokyo Conference and affiliated conferences at the following universities between 2017-19: Aoyama Gakuin University Tokyo, Taiwan National University Taipei and Fudan University Shanghai. Almost all of the authors have engaged in interdisciplinary research on the EU, are members of the EUSA Asia Pacific and have made public presentations on Brexit and how it relates to the EU, Asia, international relations, economics and institutions. Therefore, this book presents various aspects of Brexit and its aftermath from the perspectives of the disciplines of political science, economics and international relations in its analysis of the UK, the EU, Asia and the future world order. The EUSA Presidents and executive committee members participated in the Asia Pacific Conference; postgraduate student workshops were organized and their presentations moderated, thereby guaranteeing both the quality of the contributions to this book as well as encouraging young talented scholars to write about Brexit and the EU. While many books on Brexit have been published, this book offers many new and perspectives that provide suggestions for possible solutions to the problems facing the UK and the EU after Brexit.

The Rise and Rise of Illegal Ticket Touting Alessandro Moretti, 2023-02-10. This book presents an ethnographic study of contemporary ticket touts in the UK. Despite the recent interest in the topic of black market ticket sales, media coverage and parliamentary interventions over the last ten years have revealed a widespread lack of knowledge with regard to the phenomenon of touting and the players engaging in the practice. *The Rise and Rise of Illegal Ticket Touting* sheds light on the world of touting and delivers an authentic picture of the individuals involved, of their methods, values and motivations for performing ticket touting as an organised entrepreneurial deviant activity. The touts' varied methods of buying and selling tickets, the hierarchical structures and strict ethos of their criminal organisations and their specific *modi operandi* for evading detection and arrest both on the streets and online are focal points of the study. Of equal importance are the touts' attitudes, perceptions and adaptations to or outright dismissal of society's legal and moral frameworks. This book illuminates why historic and renewed attempts to challenge ticket touting have been unsuccessful, focusing on inadequate legislation, a lack of enforcement and the widespread corruption and exploitable loopholes that exist within the official primary ticket market. An accessible and compelling read, *The Rise and Rise of Illegal Ticket Touting* will appeal to students and scholars of criminology, sociology, social policy, policing and all those with an interest in live music and sport and the hidden practices that lurk beneath the surface.

[From Head Shops to Whole Foods](#) Joshua C. Davis, 2017-08-08. In the 1960s and 70s a diverse range of storefronts including head shops, African American bookstores, feminist businesses and organic grocers brought the work of the New Left, Black Power, feminism, environmentalism and other movements into the marketplace. Through shared ownership, limited growth and democratic workplaces, these activist entrepreneurs offered alternatives to

conventional profit driven corporate business models By the middle of the 1970s thousands of these enterprises operated across the United States but only a handful survive today Some such as Whole Foods Market have abandoned their quest for collective political change in favor of maximizing profits Vividly portraying the struggles successes and sacrifices of these unlikely entrepreneurs From Head Shops to Whole Foods writes a new history of social movements and capitalism by showing how activists embraced small businesses in a way few historians have considered The book challenges the widespread but mistaken idea that activism and political dissent are inherently antithetical to participation in the marketplace Joshua Clark Davis uncovers the historical roots of contemporary interest in ethical consumption social enterprise buying local and mission driven business while also showing how today s companies have adopted the language but not often the mission of liberation and social change Dictionary Catalog of the Research Libraries of the New York Public Library, 1911-1971 New York Public Library.
