The Coding Manual for Qualitative Researchers Johnny Saldana, 2021-01-27 This invaluable manual from world renowned expert Johnny Salda a illuminates the process of qualitative coding and provides clear insightful guidance for qualitative researchers at all levels The fourth edition includes a range of updates that build upon the huge success of the previous editions A structural reformat has increased accessibility the 3 sections from the previous edition are now spread over 15 chapters for easier sectional reference There are two new first cycle coding methods join the 33 others in the collection Metaphor Coding and Themeing the Data Categorically Includes a brand new companion website with links to SAGE journal articles sample transcripts links to CAQDAS sites student exercises links to video and digital content Analytic software screenshots and academic references have been updated alongside several new figures added throughout the manual It remains the only book that looks specifically at coding qualitative data as a core but often neglected skill that researchers and students alike need to effectively make sense of their data and to identify patterns before they can analyse the material Saldana presents a range of coding options with advantages and disadvantages to help researchers to choose the most appropriate approach for their project reinforcing their perspective with real world examples used to show step by step processes and to demonstrate important skills

Reagan Bob Spitz, 2019-10-01 From New York Times bestselling biographer Bob Spitz a full and rich biography of an epic American life capturing what made Ronald Reagan both so beloved and so transformational More than five years in the making based on hundreds of interviews and access to previously unavailable documents and infused with irresistible storytelling charm Bob Spitz's REAGAN stands fair to be the first truly post partisan biography of our 40th President and thus a balm for our own bitterly divided times It is the quintessential American triumph brought to life with cinematic vividness a young man is born into poverty and raised in a series of flyspeck towns in the Midwest by a pious mother and a reckless alcoholic largely absent father Severely near sighted the boy lives in his own world a world of the popular books of the day and finds his first brush with popularity even fame as a young lifeguard Thanks to his first great love he imagines a way out and makes the extraordinary leap to go to college a modest school by national standards but an audacious presumption in the context of his family's station From there the path is only very dimly lit but it leads him thanks to his great charm and greater luck to a solid career as a radio sportscaster and then astonishingly fatefully to Hollywood

And the rest as they say is history Bob Spitz's REAGAN is an absorbing richly detailed even revelatory chronicle of the full arc of Ronald Reagan's epic life giving full weight to the Hollywood years his transition to politics and rocky but ultimately successful run as California governor and ultimately of course his iconic presidency filled with storm and stress but climaxing with his peace talks with the Soviet Union that would serve as his greatest legacy It is filled with fresh assessments and shrewd judgments and doesn't flinch from a full reckoning with the man's strengths and limitations This is no hagiography Reagan was never a brilliant student of anything and his disinterest in hard nosed political scheming while admirable meant that this side of things was left to the other people in his orbit not least his wife Nancy sometimes this delegation could lead to chaos and worse But what emerges as a powerful signal through all the noise is an honest inherent sweetness a gentleness of nature and willingness to see the good in people and in this country that proved to be a tonic for America in his time and still is in ours It was famously said that FDR had a first rate disposition and a second rate intellect Perhaps it is no accident that only FDR had as high a public approval rating leaving office as Reagan did or that in the years since Reagan has been closing in on FDR on rankings of Presidential greatness Written with love and irony which in a great biography is arguably the same thing Bob Spitz's masterpiece will give no comfort to partisans at either extreme for the rest of us it is cause for celebration

Global Governance and Interaction between International Institutions Alexander Libman, Anastassia Obydenkova, 2023-09-26 This book builds on theory of authoritarian regionalism and is the first attempt to analyse the interaction of authoritarian regional organizations in Eurasia with their global and regional counterparts NATO EU WTO IMF etc It analyses three decades of the development of post Soviet regional organizations prior to the tectonic geopolitical and security changes of 2022 Eurasian regional organizations created by Russia have been frequently perceived as attempts to establish alternatives to the global governance institutions and to compete with other regional organizations like for example the European Union EU They are seen as a pronounced example of authoritarian regionalism i.e regional organizations established by non democracies The way they interact with global and regional institutions has however remained understudied This book aims to close this gap It places Eurasia within a global context and considers similar trends world wide as well as outlines the agenda for future studies of global versus regional governance The book sheds light on long term strategies of Russia in Eurasia in global economy and in world politics and on the interaction between Russia and other post Soviet states With an extended introduction and conclusion this book is an insightful resource for scholars advanced students and researchers of politics international relations and Eurasian area studies The chapters in this book were originally published as a special issue of *Post Communist Economies*

together scholars who examine the nexus between economic crisis national identities and the use of historical images and prejudices and stereotypes by focusing particularly on media and political discourses in different European countries In addition to detailed empirical discussions covering diverse national settings across Europe the different contributions discuss and offer a variety of conceptual and methodological approaches within the inter disciplinary study of national identities prejudice and stereotyping in the context of socio economic and political crises This book was originally published as a Special Issue of National Identities
