Automotive Quality Systems Handbook David Hoyle, 2000-07-28 The Automotive Quality Systems Handbook is a step by step guide to interpreting and implementing the ISO TS 16949 Accepted by major vehicle manufacturers as an alternative to the existing US German French and Italian automotive quality system requirements this Technical Specification defines specific requirements for the application of ISO 9001 1994 throughout the automotive supply chain While initially the standard will be voluntary for the first time second and third tier suppliers may be faced with pressure to undergo third party registration After the year 2000 the next version of the standard has actually replaced the four existing standards AVSQ EAQF QS 9000 and VDA 6 1 and the price of entry to the global automotive market is conformance to this new standard This handbook is an essential and comprehensive guide to enable organizations to interpret and implement the ISO TS 16949 Unlike other books on the subject each element clause and requirement is analyzed in detail with guidance provided for its implementation The handbook is written primarily for implementers and discerning managers for instructors and auditors and contains a range of solutions that would be acceptable in the automobile industry It includes details of the certification scheme the differences with existing standards check lists questionnaires tips for implementers flow charts and a glossary of terms This book gives more than an overview it tells how you to do it Contains detailed instructions and check lists for implementation Addresses all ISO requirements

Proceedings of the 6th CIRP-Sponsored International Conference on Digital Enterprise Technology George Q. Huang, K.L. Mak, Paul G. Maropoulos, 2009-12-12 This Proceedings volume contains articles presented at the CIRP Sponsored International Conference on Digital Enterprise Technology DET2009 that takes place December 14 16 2009 in Hong Kong This is the 6th DET conference in the series and the first to be held in Asia Professor

Paul Maropoulos initiated hosted and chaired the 1st International DET Conference held in 2002 at the University of Durham. Since this inaugural first DET conference, the DET conference series has been successfully held in 2004 at Seattle Washington USA, in 2006 at Setúbal Portugal, in 2007 at Bath England and in 2008 at Nantes France. The DET2009 conference continues to bring together International expertise from the academic and industrial fields pushing forward the boundaries of research knowledge and best practice in digital enterprise technology for design and manufacturing and logistics and supply chain management. Over 120 papers from over 10 countries have been accepted for presentation at DET2009 and inclusion in this Proceedings volume after stringent refereeing process. On behalf of the organizing and program committees, the Editors are grateful to the many people who have made DET2009 possible to the authors and presenters especially the keynote speakers to those who have diligently reviewed submissions to members of International Scientific Committee, Organizing Committee and Advisory Committees and to colleagues for their hard work in sorting out all the arrangements. We would also like to extend our gratitude to DET2009 sponsors, co-organizers and supporting organizations.
