Intellectual Philanthropy Aurélie Vialette, 2018-08-15 What s in a nineteenth century philanthropist Fear of an uprising But the frightened philanthropist has a remedy Aware that the urban surge of the working class masses in Spain would create a state of emergency he or she devises a means to seduce the masses away from rebellion by taking on himself or herself the role of the seducer the capitalist intellectual hero invested in the caretaking of the unpredictable working class Intellectual Philanthropy examines cultural practices used by philanthropists in modern Iberia It explains the meaning and role of intellectual philanthropy by focusing on the devices and apparatuses philanthropists devised to realize their projects Intellectual philanthropists considered themselves activists in that they aimed to impact social structures and deployed a rhetoric of the affect to convince the workers to join their philanthropic enterprise Philanthropy in the nineteenth century was not necessarily linked to money Motivations could be moral or political they could arise from a desire to enhance social status or to acquire influence To explicitly designate this conceptualization of the philanthropic act the author proposes its own name intellectual philanthropy Intellectual philanthropy is the use of philanthropic platforms by intellectuals to deploy cultural and educational structures in which workers could acquire a cultural capital constructed and organized by the philanthropists Vialette argues that intellectual philanthropy appeared as a reaction to the feared political and cultural organization of the working class rather than as a process of worker emancipation. These philanthropic processes aimed at organizing the workers emotionally and rationally into what she calls micro societies Philanthropists used the technique of seduction and expressed love to and for a targeted class However this seduction prevented real communication and created a moral and symbolic indebtedness This process was perverse in that through its cultural and educational structures philanthropy would give workers cultural capital that was not just emancipatory but also a way to restrict their agency
