A Guide to American Defenders of Land, Sea & Sky Patricia A. Bonner, 1996      A Guide to Romantic Love: the Romantic Character and the Romantic Tradition Ariana Gonzalez Hernandez, 2018-02-17 Romantic love is something that is actually a product of a romantic culture. It is a product of its traditions and of the character of those who subscribe to its values. In this comprehensive guide, you will not only learn about the romantic character and the traditions that enable you to cultivate romantic love in your life; you will also learn about the culture itself as well as its history, enabling you to develop a profound understanding and appreciation for this culture and the unique type of relationship that it yields. This guide isn't just about creating romantic relationships or about culture. It is about self-improvement, about building character, about potential, and about becoming complete in the process. Since our relationships are a reflection of who we are, then the improvement of our relationships naturally begins with the improvement of ourselves. Peoples of the romantic culture have captured the hearts of the world for centuries. Their enigmatic ways provoke fascination and curiosity among those foreign to their cultures. The mystery of their enigmatic ways is solved once and for all by providing you with a window into their seemingly magical world. At the same time, you will learn how to take part in their culture in order to create your own enigmatic persona and your own magical and truly romantic and loving relationships.

**Guide to U.S. Political Parties** Marjorie R. Hershey, 2014-04-01 This one-volume reference presents the major conceptual approaches to the study of U.S. political parties and the national party system, describing the organization and behavior of U.S. political parties in thematic narrative chapters that help undergraduate students better understand party origins, historical development, and current operations. Further, it provides researchers with in-depth analysis of important subtopics and connections to other aspects of politics. Key Features: Thematic narrative chapters organized into six major parts provide the context as well as in-depth analysis of the unique system of party politics in the United States. Top analysts of party politics provide insightful chapters that explore how and why the U.S. parties have changed over time, including major organizational transformations, by the parties' behavioral changes among candidates and party activists, and attitudinal changes among their partisans in the electorate. The authors discuss the way the traditional concept of formal party organizations gave way over time to a candidate-centered model fueled in part by changes in campaign finance, the rise of new communication technologies, and fragmentation of the electorate. This book is an ideal reference for students and researchers who want to develop a deeper understanding of the current challenges faced by citizens of republican government in the United States.

**The Ultimate Guide to the 2020 Election** No Labels, Ryan Clancy, Margaret White, 2019-10-29 Will Donald Trump's Mexican border wall actually make our country safer? How much will Bernie Sanders's Medicare for All plan really cost American taxpayers? You'll find the answers in this book. The 2020 U.S. presidential election doesn't seem so much a battle of ideas as it does a war of two tribes bent on the other's destruction.
