## United Nations Organization Stabilization Mission in the Democratic Republic of the Congo

### Report of the Secretary-General

#### I. Introduction

1. The present report, submitted pursuant to paragraph 55 of Security Council resolution [2556 \(2020\)](#), covers major developments in the Democratic Republic of the Congo from 2 December 2020 to 18 March 2021. It describes progress made in the implementation of the mandate of the United Nations Organization Stabilization Mission in the Democratic Republic of the Congo (MONUSCO) since the Secretary-General's report of 30 November 2020 (S/2020/1150). It provides an overview of political developments, including the progress made towards the strengthening of State institutions and key governance and security reforms. It also outlines the Mission's pursuit of a comprehensive approach to the protection of civilians, as well as progress made in adjusting its priorities, posture and presence in accordance with the joint strategy on the progressive and phased drawdown of MONUSCO (S/2020/1041) and the Action for Peacekeeping initiative.

#### II. Political developments

2. Political dynamics were driven by the decision of the President, Félix Tshisekedi, to put an end to the ruling *Cape pour le changement* (CACH)-*Fronc commun pour le Congo* (FCC) coalition and to establish a new coalition by the name of *Union sacrée de la nation* (USN).

3. In an address to the nation on 6 December and in his annual speech to Congress on the state of the nation on 14 December, President Tshisekedi described the outcome of consultations held with political and civil society actors from 2 to 25 November, and announced the appointment of an "informateur", in accordance with article 78 of the Constitution. On 1 January 2021, Senator Modeste Bahati Lukwembe was appointed informateur and charged with identifying a new majority in Parliament, with a view to forming a new Government.

4. On 5 December, tensions within the ruling coalition increased when a group of deputies filed petitions to depose the speaker of the National Assembly, Jeanine Mabunda, and her bureau. On 7 December, several deputies disrupted a plenary session convened by Ms. Mabunda, while the Congolese National Police dispersed CACH and FCC supporters who clashed near the Assembly building. On

The Oxford Handbook of the Responsibility to Protect Alex Bellamy, Tim Dunne, 2016-06-30 The Responsibility to Protect R2P is intended to provide an effective framework for responding to crimes of genocide ethnic cleansing war crimes and crimes against humanity It is a response to the many conscious shocking cases where atrocities on the worst scale have occurred even during the post 1945 period when the United Nations was built to save us all from the scourge of genocide The R2P concept accords to sovereign states and international institutions a responsibility to assist peoples who are at risk or experiencing the worst atrocities R2P maintains that collective action should be taken by members of the United Nations to prevent or halt such gross violations of basic human rights This Handbook containing contributions from leading theorists and practitioners including former foreign ministers and special advisors examines the progress that has been made in the last 10 years it also looks forward to likely developments in the next decade The United Nations Security Council in the Age of Human Rights Jared Genser, Bruno Stagno Ugarte, 2014-06-05 The first comprehensive look at the human rights dimensions of the work of the only UN body capable of compelling action by its member states Strengthening the Rule of Law through the UN Security Council Jeremy Farrall, Hilary Charlesworth, 2016-04-14 The UN Security Council formally acknowledged an obligation to promote justice and the rule of law in 2003 This volume examines the extent to which the Council has honoured this commitment when exercising its powers under the UN Charter to maintain international peace and security It discusses both how the concept of the rule of law regulates or influences Security Council activity and how the Council has in turn shaped the notion of the rule of law It explores in particular how this relationship has affected the Security Council's three most prominent tools for the maintenance of international peace and security peacekeeping sanctions and force In doing so this volume identifies strategies for better promotion of the rule of law by the Security Council This book will be of interest to scholars and students of international law international relations international development and peacekeeping **Documents of the National Security Council. Sixth Supplement** Blair D. Hydrick, 1993 **Preventing Chemical Weapons** Michael Crowley, Malcolm Dando, Lijun Shang, 2018-08-20 The life and chemical sciences are in the midst of a period of rapid and revolutionary transformation that will undoubtedly bring societal benefits but also have potentially malign applications notably in the development of chemical weapons Such concerns are exacerbated by the unstable international security environment and the changing nature of armed conflict which could fuel a desire by certain States to retain and use existing chemical weapons as well as increase State interest in creating new weapons whilst a broader range of actors may seek to employ diverse toxic chemicals as improvised weapons Stark indications of the multi faceted dangers we face can be seen in the chemical weapons attacks against civilians and combatants in Iraq and Syria and also in more targeted chemical assassination operations in Malaysia and the UK Using a multi disciplinary approach and drawing upon an international group of experts this book analyses current and likely near

future advances in relevant science and technology assessing the risks of their misuse The book examines the current capabilities limitations and failures of the existing international arms control and disarmament architecture notably the Chemical Weapons Convention in preventing the development and use of chemical weapons Through the employment of a novel Holistic Arms Control methodology the authors also look beyond the bounds of such treaties to explore the full range of international law international agreements and regulatory mechanisms potentially applicable to weapons employing toxic chemical agents in order to develop recommendations for more effective routes to combat their proliferation and misuse A particular emphasis is given to the roles that chemical and life scientists health professionals and wider informed activist civil society can play in protecting the prohibition against poison and chemical weapons and in working with States to build effective and responsive measures to ensure that the rapid scientific and technological advances are safeguarded from hostile use and are instead employed for the benefit of us all
