Teaching the Nature of Science Through Process Skills Randy L. Bell, 2008. Engage your students with inquiry-based lessons that help them think like scientists. This book has made such a difference in my teaching of science this school year. I have had some of the most amazing science lessons and activities with my students, and I attribute this to what I learned from this book. I have watched my 5th grade students go from being casual observers in science to making some amazing observations that I even missed. We enjoy our class investigations, and the students ask for more. Alyce F. Surmann, Sembach Middle School Teachers. Will relate well to the author's personal stories and specific examples given in the text, especially the ones about events in his own classroom, like having the grasshoppers escape into the classroom. Andrea S. Martine, Director of Curriculum and Instruction, Warrior Run School District. With *Teaching the Nature of Science through Process Skills*, author and science educator Randy Bell uses process skills you'll recognize such as inference and observation to promote an understanding of the characteristics of science knowledge. His personal stories taken from years of teaching set the stage for a friendly

narrative that illuminates these characteristics of scientific knowledge and provides step by step guidance for implementing inquiry activities that help children understand such important yet abstract concepts With Randy as your guide you can better adhere to current science education standards that urge teachers to go beyond teaching science content to teach children about the practice and the nature of science in a way that engages all learners in grades three through eight Investigate further More than 50 ideas and activities for teaching the nature of science to help you meet content standards A comprehensive framework to guide you in integrating the approach across the science curriculum throughout the school year and across the grade levels A goldmine of reproducible resources such as work sheets notebook assignments and more Assessment guidance that helps you measure your students nature of science understanding
