Geoffrey Till,2012 The Asia Pacific region is likely to be the fulcrum of international security affairs in the twenty first century As the region s economies become stronger defense budgets are rising and navies are expanding and modernizing Some aspects of this procurement drive show signs of action reaction dynamics between peer competitors the hallmark of an arms race Is the Asia Pacific on the brink of an outright naval arms race that could entail vast expenditures threaten regional security and severely disrupt global trade Or can rising naval capabilities and a desire for prestige among regional powers be reconciled with economic interdependence freedom of navigation and managed competition between great powers This analyzes the naval expansion of the four major Asia Pacific powers the US China India and Japan It looks at recent and

planned procurement to find examples of action reaction behavior and analyzes the underlying tensions and the potential for competition It offers an insight into the size expenditure and capability of the naval forces in each country and the role of the navy in overall military strategy examines naval philosophies and specific security concerns and how these will influence decision making and assesses how each nation s naval strategy is evolving in response not only to global threats but to shifts in the regional power balance Back cover      **Department of Defense Appropriations for Fiscal Year ...** United States.
