Reed combines rigorous historical research with a passionate examination of the aesthetic dimensions of typographic art. Employing a clear and engaging prose style, he delves into the lives of key figures, the technological advancements, and the socio-political contexts that influenced the craft, making this work a seminal text in the study of typography and print culture. The book not only showcases the intricacies of letterforms but also reflects on their impact on the burgeoning literary landscape of the period. Talbot Baines Reed, an accomplished author and typographer, possessed a lifelong fascination with the written word and its physical manifestations. His passion resonates throughout this comprehensive examination, portraying the rich tapestry of English typography. Authority and Alliance in the Letters of Henry Adams Joanne Jacobson, 1992 Argues that radical cultural change in the late 19th century US intensified a set of complex rhetorical imperatives which the letter was a genre ideally positioned to serve and draws supporting evidence from the letters of historian Henry Adams. Concludes that faced with isolation and alienation from the quickly industrializing and urbanizing society, he chose letters as a medium over which he retained rhetorical control and could therefore use to seek alliance and resistance.
