

National kindergarten Curriculum Guide (NKCG)

- One of the major challenges that kindergarten teachers face with the mandatory opening of kindergarten classes in the public school is the understanding of the content and objectives of the curriculum consistent with universally accepted norms and conduct. This is important to ensure that young children are getting the appropriate preparation for school work that will determine their abilities to thrive during the earlier part of their lives.

Early Childhood Mathematics Skill Development in the Home Environment Belinda Blevins-Knabe, Ann M. Berghout
Austin, 2016-10-17 This volume presents current research on the connections between the home and family environment on children's mathematics development. Focusing on infancy through first grade, it details the role of parents and other caregivers in promoting numeracy and the ways their active participation can prepare young children for learning about formal mathematics. Research data answer key questions regarding the development of numeracy alongside cognitive and linguistic skills, early acquisition of specific math skills, and numeracy of children with atypical language skills. The book also provides practical recommendations for parents and other caregivers as well as implications for future research studies and curriculum design. Included in the coverage: Ways to optimize home numeracy environments; Individual differences in numerical abilities; Cross-cultural comparisons and ways to scaffold young children's mathematical skills; Mathematics and language in the home environment; Center-based and family-based child care; Games and home numeracy practice. *Early Childhood Mathematics Skill Development in the Home Environment* is an essential resource for researchers, graduate students, and professionals in infancy and early childhood development, child and school psychology, early childhood education, social work, mathematics education, and educational psychology.

Early Childhood Education in Chinese Societies Nirmala Rao, Jing Zhou, Jin Sun, 2017-01-20 This book provides an up-to-date account of relevant early childhood policy and practice in five Chinese societies: the People's Republic of China or Mainland China, Hong Kong, Macao, Singapore, and Taiwan. It analyses how traditional Chinese values, Eastern and Western curricular approaches, and socio-political, economic, cultural, and demographic changes influence current policies, services, and practice. It addresses responses to global concerns about the excluded and disadvantaged and about quality, and explains lessons from and for Chinese early childhood education. This book is the first English language research-based review of early childhood education and the factors that affect it in different Chinese societies. It is particularly timely given the increased recognition of the importance of early childhood education for human capital development globally and the international interest in understanding early education in Chinese societies.

The Bloomsbury Handbook of Gender and Sexuality in Early Childhood Jessica Prioletta, Adam Davies, Kylie Smith, 2025-06-12 Gender and sexuality are often problematically considered to be irrelevant to very young children. This Handbook surveys challenges and advances the theories, research approaches, and practices around gender and sexuality in the early years and foregrounds early childhood as a crucial site for constructions and deconstructions around gender and sexuality. The Handbook features chapters by leading academics, practitioners, and policy makers based in Australia, Canada, India, Indonesia, South Africa, the UK, and the USA. It covers a range of key critical theories, methods, and practices, including engagements with post-developmentalism, feminist, Black feminist, queer, and trans theories, intersections with indigeneity, race, and class, ethnography, action research, care ethics, and sexual health. The Handbook illuminates the importance of

attending to gender and sexuality in the early childhood across various sites including in the classroom at home in policy and more *Shaping Scientific Literacy in Every Elementary Classroom* Judith S. Lederman, Selina L. Bartels, Valarie Akerson, 2025-04-17 This textbook guides teachers in enacting science instruction that results in the cultivation of scientifically literate students in elementary school Prompting discussions in the pre service environment around what it means to be scientifically literate this book helps teachers introduce children to their world through science and its impact on their daily lives Chapters show teachers how to design implement and assess inquiry based science instruction through lessons that authentically model real science investigating questions with multiple solutions and discussing how these lessons build students scientific literacy Sample lessons are modeled on research and tested practice while also recognizing the need to accommodate a diverse range of students and classroom contexts Ideal for pre service science teachers as well as in service professional development this book can be used in any elementary science methods course or wherever state or national standards require developing scientific literacy In helping teachers produce scientifically literate students it is a resource that enables students to have the content knowledge attitudes and abilities to see the role science plays in issues from the personal to the global

Innovation and Accountability in Teacher Education Claire Wyatt-Smith, Lenore Adie, 2018-10-24 This is the foundational book for the new series Teacher Education Learning Innovation and Accountability The book canvasses research practice and policy perspectives in teacher education across diverse geographic social and political contexts It explores the lifespan of teacher development from initial preparation through to graduate classroom practice as it occurs in an intensifying culture of standards and regulation The characterization of initial teacher education ITE in a crucible of change permeates throughout the book The chapters open up new ways of thinking about innovation and accountability in ITE and the professionalization of teaching exploring fundamental questions such as Who are the actors in teacher preparation and how do they interact How can we learn about the quality of teacher education Where can we hear the voices of teacher educators and preservice teachers as well as school based teacher educators What are the new and emerging roles of others in teacher education who have not been involved previously including employing authorities p 22 While the book provides responses to these and other provocative questions it also offers new insights into innovative teacher education from a wide range of policy and practice contexts

Teacher Education in Diverse Settings Larry Prochner, Ailie Cleghorn, Anna Kirova, Christine Massing, 2016-09-27 Teacher Education in Diverse Settings presents a study of initial educator preparation in three social contexts a training program for immigrant child care educators in Canada a pre and lower primary specialization in a teacher education program in Namibia and a partnership between the Misak indigenous communities in Colombia and the University of Cauca to deliver courses for educators within their communities In each setting the book explores the relationships between indigenous ways of thinking and western discourse in reference to the preparation of educators whether they be teachers community leaders or newly arrived immigrants in Canada In each

case the authors focus is on the tensions between the local understandings and global ideas and the creation of space for diverse but intersecting worldviews The book s goal is to investigate ways that teacher educators parents and communities can better prepare children for the realities of schooling while preserving the integrity of local norms and values through educator preparation programs
