**Natural Flights of the Human Mind** Clare Morrall, 2024-01-17 Peter Straker lives in a converted lighthouse on the Devon coast with a fine view of the sea two cats and no neighbors That s just the way he likes it He speaks to no one except in his dreams where he converses with some of the seventy eight people he believes he killed nearly a quarter century earlier though he can t quite remember how it happened But Straker s carefully preserved solitude is about to be invaded by Imogen Doody a prickly and unapproachable school caretaker with a painful history herself Against his will and hers Straker soon finds himself helping Imogen repair the run down cottage she s inherited There are forces gathering however as the twenty fifth anniversary of Straker s crime approaches and they re intent upon disturbing his precarious peace **Natural Flights**

**of the Human Mind** Clare Morrall, 2006-01-02 In a disused lighthouse on the Devon coast lives Peter Straker a recluse who in his dreams is visited by an oddly disparate group of people from a grandmother to a teenager But they have all been dead for 24 years and Straker thinks he killed them Many years ago newly married Imogen Doody s husband went to work one day and never came back leaving her angry at life and other people Now Imogen has inherited a cottage near Straker s lighthouse a piece of good fortune she badly needs But the cottage is falling down and she needs help restoring it Guilt emotional bruising and a Tiger Moth plane lie at the heart of this story of two misfits Related with infectious warmth and wit it is a testament to the essential goodness and resilience of the human spirit Natural Flights of the Human Mind Clare Morrall, Clare, 2006

**The Body Economic** Catherine Gallagher, 2009-01-10 The Body Economic revises the intellectual history of nineteenth century Britain by demonstrating that political economists and the writers who often presented themselves as their literary antagonists actually held most of their basic social assumptions in common Catherine Gallagher demonstrates that political economists and their Romantic and early Victorian critics jointly relocated the idea of value from the realm of transcendent spirituality to that of organic life making human sensations especially pleasure and pain the sources and signs of that value Classical political economy this book shows was not a mechanical ideology but a form of nineteenth century organicism which put the body and its feelings at the center of its theories and neoclassical economics built itself even more self consciously on physiological premises The Body Economic explains how these shared views of life death and sensation helped shape and were modified by the two most important Victorian novelists Charles Dickens and George Eliot It reveals how political economists interacted crucially with the life sciences of the nineteenth century especially with psychophysiology and anthropology producing the intellectual world that nurtured not only George Eliot s realism but also turn of the century literary modernism *Charlotte Lennox* Susan Carlile, 2018-01-01 Charlotte Lennox c 1729 1804 was an eighteenth century English novelist whose most celebrated work *The Female Quixote* 1752 is just one of eighteen works spanning a forty three year career Susan Carlile s critical biography of Lennox focuses on her role as the central figure in the professionalization of authorship in England Book by Book Michael Dirda, 2007-04-01 As warm and stimulating as a

library to which one returns again and again the Pulitzer Prize winning critic discusses the rewards of reading books Chicago Tribune Editor's Choice Once out of school most of us read for pleasure Yet there is another equally important though often overlooked reason that we read to learn how to live Though books have always been understood as life teachers the exact way in which they instruct cajole and convince remains a subject of some mystery Drawing on sources as diverse as Dr Seuss and Simone Weil P G Wodehouse and Isaiah Berlin Pulitzer Prize winning critic Michael Dirda shows how the wit wisdom and enchantment of the written word can inform and enrich nearly every aspect of life from education and work to love and death Organized by significant life events and abounding with quotations from great writers and thinkers Book by Book showcases Dirda's considerable knowledge which he wears lightly Favoring showing rather than telling Dirda draws the reader deeper into the classics as well as lesser known works of literature history and philosophy always with an eye to what is relevant to how we might better understand our lives Highly cultured yet never pretentious Dirda's survey convincingly demonstrates what a wealth of life lessons moral emotional and aesthetic a good library can contain Publishers Weekly

**Utopian Imagination and Eighteenth Century Fiction** Christine Rees, 2014-09-19 Utopian fiction was a particularly rich and important genre during the eighteenth century It was during this period that a relatively new phenomenon appeared the merging of utopian writing per se with other fictional genres such as the increasingly dominant novel However while early modern and nineteenth and twentieth century utopias have been the focus of much attention the eighteenth century has largely been neglected Utopian Imagination and Eighteenth Century Fiction combines these major areas of interest interpreting some of the most fascinating and innovative fictions of the period and locating them in a continuing tradition of utopian writing which stretches back through the Renaissance to the Ancient World Beginning with a survey of the recurrent topics in utopian writing power structures in the state money food sex the role of women birth education and death the book brings together canonical eighteenth century texts containing powerful utopian elements such as Robinson Crusoe Gulliver's Travels and Rasselas and less familiar works to examine the reworking of these topics in a new context The unfamiliar texts including Gaudenzio di Lucca are described in detail to give students an idea of relevant material across a broad area A section is devoted specifically to women writes an area which has become the focus of attention The mixture of texts provides a useful cross reference for students tackling the subject from various perspectives and the comprehensive bibliography provides a valuable tool for those with general or specific interests
