*Le pain et le cirque* Paul Veyne, 1976 , *On the Postcolony* Achille Mbembe, 2001 Refreshing a stale debate about power in the postcolonial state this book addresses a topic debated across the humanities and social sciences how to define discuss and address power and the subjective experience of ordinary people in the face of power *A History of the Social Sciences in 101 Books* Cyril Lemieux, Laurent Berger, Marielle Mace, Gildas Salmon, Cecile Vidal, 2023-08-01 An intellectual history of the social sciences that offers a library of 101 books that broke new ground for the field What are the social sciences What unifies them This essay collection seeks to answer these and other important questions as it considers how the field has developed over the years from post World War II to the present day throughout the world Edited by Cyril Lemieux Laurent Berger Marielle Mac Gildas Salmon and C ile Vidal A History of the Social Sciences in 101 Books brings together a diverse range of researchers in the social sciences to present short essays on 101 books both renowned and lesser known that have shaped the field from Theodor Adorno and Max Horkheimer's Dialectic of Enlightenment 1947 to Michel Aglietta's Money 5000 Years of Debt and Power 2016 While there have been surveys and intellectual histories of particular disciplines within the social sciences history anthropology sociology until now there has been no intellectual history of the social sciences as a unified whole Far from presenting a fixed and frozen canon A History of the Social Sciences in 101 Books offers instead a moving multiform landscape with no settled questions only an ongoing series of new perspectives and challenges to previously established grounding **Journeys of the Mind** Peter Brown, 2025-10-28 A beautifully written personal account of the discovery of late antiquity by one of the world's most influential and distinguished historians The end of the ancient world was long regarded by historians as a time of decadence decline and fall In his career long engagement with this era the widely acclaimed and pathbreaking historian Peter Brown has shown however that the neglected half millennium now known as late antiquity was in fact crucial to the development of modern Europe and the Middle East In Journeys of the Mind Brown recounts his life and work describing his efforts to recapture the spirit of an age As he and other scholars opened up the history of the classical world in its last centuries to the wider world of Eurasia and northern Africa they discovered previously overlooked areas of religious and cultural creativity as well as foundational institution building A respect for diversity and outreach to the non European world relatively recent concerns in other fields have been a matter of course for decades among the leading scholars of late antiquity Documenting both his own intellectual development and the emergence of a new and influential field of study Brown describes his childhood and education in Ireland his university and academic training in England and his extensive travels particularly in the eastern Mediterranean and the Middle East He discusses fruitful interactions with the work of scholars and colleagues that include the British anthropologist Mary Douglas and the French theorist Michel Foucault and offers fascinating snapshots of such far flung places as colonial Sudan midcentury Oxford and prerevolutionary Iran With Journeys of the Mind Brown offers an essential account of the grand endeavor to

civilization the fifth century BC This was the first and last period before the Romans in which great political and military power was located in the same place as cultural importance This volume therefore is more narrowly focused geographically than its predecessors and successors and hardly strays beyond Greece Athens is at the center of the picture both politically and culturally but events and achievements elsewhere are assessed as carefully as the nature of our sources allows Two series of narrative chapters one on the growth of the Athenian empire and the development of Athenian democracy the other on the Peloponnesian War that brought them down are divided by a series of studies in which the artistic and literary achievements of the fifth century are described
