Instruction and Pedagogy for Youth in Public Libraries Casey Rawson, 2018-09-25 There seems to be little resistance to the idea that children and teens learn in public library spaces However many public librarians do not see themselves as teachers This implies that much of the learning that happens in public libraries is incidental tangential to the real purpose and design of these spaces and programs In this book we make the case that public librarians should embrace

an explicit instructional role as a core part of their professional practice Inside you ll find both a comprehensive review of what is known so far about instruction for youth in public libraries and a primer on core educational concepts and frameworks for current and future public librarians Each chapter includes real world examples of libraries and librarians who are already practicing powerful teaching School Libraries Supporting Students with Hidden Needs and Talents Karla Bame Collins,2024-10-03 Together librarians and specialists can create experiences to reach all learners in their buildings including those with hidden needs and talents While school librarians are experts at collaborating with classroom teachers too often they overlook the specialists in their buildings as key collaborative partners Focusing on the many specialists who work with students Karla Bame Collins provides information about their roles and responsibilities and discusses how school librarians can collaborate to improve learning for all students including those with hidden needs disabilities and talents that are not easily detected and may go undiagnosed Because librarians work with every student but may not always be informed about each student s particular needs it s important for them to know whom in the school to turn to for information Librarians will gain ideas for working with students to provide the best possible learning environment for each This practical book looks at the whole school library environment collection instruction space and programming and offers many ideas for librarians to collaborate with other educators and specialists for the good of all students **Achieving a Curriculum-based Library Media Center Program** Jane Bandy Smith,1995 This text provides information to ensure that teachers and students access the best available resources and use them in the manner most effective for each individual learner It focuses on the library s role in the curriculum design process **Resources in Education** ,1980 *Ontario Library Review and Book-selection Guide* ,1921 *From Rigorous Standards to Student Achievement* Laura McCullough,Michael D.
