*Interdisciplinary Research in Engineering: Steps towards Breakthrough Innovation for Sustainable Development* Aurel Vlaicu, Stelian Brad, 2013-06-27 Selected peer reviewed papers from the Interdisciplinary Research in Engineering Steps towards Breakthrough Innovation for Sustainable Development INTERIN 2013 25 February 1 March 2013 Cluj Napoca Romania **Approaches to Specialised Discourse in Higher Education and Professional Contexts** Alejandro Curado Fuentes, Mercedes Rico García, Patricia Edwards Rokowski, 2009-03-26 **Approaches to Specialised Discourse in Higher Education and Professional Contexts** brings together a number of studies by various authors in the common field of languages for specific purposes LSP This area faces a major challenging need to work with both specialised content and language a complex combination which can be discouraging to many a language teacher from a traditional philological background In the introduction to this volume Dr Martin Hewings asks how these teachers as mere onlookers on specialist areas in higher education and the professions are successfully to teach students communication skills The answer is most probably contained in no single approach or scope but rather in a multiple probing of methods aimed at the empirical observation and analysis of language use in the specific contexts in which they are housed The studies presented herein illustrate such a multi fold scenario analysing and sharing significant findings on discourse across academic disciplines and

professional areas The authors not only evince the importance of the various methodologies adopted but also in their role as teachers and researchers demonstrate the significance of working as integrated members in the fields they teach Clearly reflected in this volume is the natural adaptation of LSP research pushing beyond theory to filter into classroom developments and professional interactions The fact that these papers have been selected from the fourth conference by the European Association of Languages for Specific Purposes AELFE held in Spain October 2005 indicates that the LSP community tends to look into the blend of practice and research as a key exponent for successful learning integration Because the linguist is also the LSP practitioner or vice versa the enquiries that conduct these chapters are commonly addressed either implicitly or openly by students and teachers alike For readers who would like to learn or know more about communicative strategies and methodological approaches in different specialisms this book may be a valuable resource
