

"If any of you lack wisdom, you should ask God, who gives generously to all without finding fault, and it will be given to you."
-James 1:5

Decision Matrix-Example

Making decisions can be challenging especially if you haven't established some guidelines for what kind of solution you need. Without clear criteria we can easily make decisions based on feelings or impulse rather than wisdom. A decision matrix is a tool for identifying the best possible solution based on your chosen criteria.

Directions: Fill in the problem you're needing to solve. In each Solution Criteria slot fill in your non-negotiables or the requirements that need to be met in order to achieve your desired results. In each Solution slot, fill in your possible solutions. Then evaluate each solution against your established criteria.

Problem	Solution Criteria 1	Solution Criteria 2	Solution Criteria 3	Solution Criteria 4	Solution Criteria 5	TOTAL
Where to Vacation	Weather: 75-85 degrees	Beach or Mountains	Good Food Options	\$2,500 or less	No more than 6 hour drive away	
Solution 1 Traverse City, Michigan	X	X	X	X	X	5
Solution 2 Asheville, North Carolina	X	X	X			3
Solution 3 Gatlinburg, Tennessee	X	X	X	X		4
Solution 4 Lexington, Kentucky	X		X	X	X	4

This textbook focuses on a set of skills based learning outcomes common among undergraduate environmental programs. It covers critical scientific skills and ways of thinking that bridge the gap between the knowledge based content of introductory environmental textbooks and the professional skills students of the environment need to succeed in both their academic programs and professional careers. This emphasis on skills is gaining more traction among academic programs across the country as they shift focus from knowledge delivery to learning outcomes and professional competencies. The book features clear methodological frameworks, engaging practice exercises, and a range of assessment case studies suitable for use across academic levels. For introductory levels, this text uses guided practice exercises to expose students to the skills they will need to master. At the capstone level, this text allows students to apply the knowledge they have gained to real world issues and to evaluate their competency in key programmatic learning outcomes. A detailed answer key with rubrics customized for specific questions and sample answers at various competency levels is available to verified course instructors. Access to these answer key resources can be obtained by contacting the Springer Textbook Team at Textbooks@springer.com.
