Many Kinds Of Silence The Lost Years Of William Shakespeare:

Many Kinds of Silence Elizabeth Ashworth, 2014-11-17 When William Shakespeare leaves his home in Stratford in the company of a Catholic priest he knows that he is walking into danger but the vast libraries held in the name of God are enough to tempt him to risk his life in the pursuit of knowledge However the capture and death of his mentor Edmund Campion and his return to Stratford set William on an altogether different path Marriage to Anne Hathaway means he must turn his back on the priesthood but there are other ways for a clever and charming young man to be of use to the faith Many Kinds of Silence traces the story of a young William Shakespeare and his patron Ferdinando Stanley and reveals how religion science and choosing in whom to place your trust meant the difference between life and death in Elizabethan England

The Dramatic Works of William Shakespeare: Adapted for Family Reading by T. Bowdler ... New Edition, with Steel Engravings William Shakespeare, 1861 Historical Affects and the Early Modern Theater Ronda Arab, Michelle Dowd, Adam Zucker, 2015-05-15 This collection of original essays honors the groundbreaking scholarship of Jean E Howard by exploring cultural and economic constructions of affect in the early modern theater While historicist and materialist inquiry has dominated early modern theater studies in recent years the historically specific dimensions of affect and emotion remain underexplored This volume brings together these lines of inquiry for the first time exploring the critical turn to affect in literary studies from a historicist perspective to demonstrate how the early modern theater showcased the productive interconnections between historical contingencies and affective attachments Considering well known plays such as Shakespeare's Antony and Cleopatra and Thomas Dekker's The Shoemaker's Holiday together with understudied texts such

as court entertainments and examining topics ranging from dramatic celebrity to women's political agency to the parental emotion of grief this volume provides a fresh and at times provocative assessment of the historical affects financial emotional and socio political that transformed Renaissance theater Instead of treating history and affect as mutually exclusive theoretical or philosophical contexts the essays in this volume ask readers to consider how drama emplaces the most personal unspeakable passions in matrices defined in part by financial exchange by erotic desire by gender by the material body and by theatricality itself As it encourages this conversation to take place the collection provides scholars and students alike with a series of new perspectives not only on the plays emotions and histories discussed in its pages but also on broader shifts and pressures animating literary studies today
