Mastering The Law Of Attraction:

Mastering the Law of Attraction J.D. Rockefeller, 2016-06-28 You get what you think Like attracts like You attract what you focus on You have probably been hearing these statements again and again in the last two decades Is it true Although it sounds interesting some skeptics believe that the law of attraction really works Why shouldn't it We always tend to get what we focus on When we focus on the fact that a job interview is going to be a disaster it usually does turn into one When we think about how we are going to panic when we enter the examination hall the likelihood is that that's exactly what's going to happen These are experiences that many of us have gone through As usual most of us find it easier to remember the negative events and not the positive events If we focus on something negative and it happens then we can surely focus on something positive and it will happen too This is the general premise of the law of attraction Made popular by the book *The Secret* and the movie by the same name the law of attraction is quite simple It just says that like attracts like So if you focus on bad things you will attract disaster If you focus on good things you will attract happiness But this is easier said than done It seems to sound easy but many people find it difficult when they try to follow this principle They want something they focus on the lack of it and that's what they get lack of it This is where most people tend to go wrong The law of attraction is about focusing on abundance and not on lack So if you focus on the fact that you already have what you desire you will get it But if you focus on the fact that you don't have something and would like to have it you never get it In that case how can you use the law of attraction to manifest your desires and your dreams into reality Many people have been successful in manifesting their desire for money a soul mate a house a great career and so on and so forth You can too Just read this guide that aims to help you understand how you can manifest your desires into reality and where you may go wrong

Advanced Law of Attraction Techniques Eddie Coronado, 2015-09-20 THE LAW OF ATTRACTION WORKS IF YOU WORK IT The fastest way to manifest your desires is by implementing a Law of Attraction action plan Since everything in the Universe is energy the necessary ingredient for manifestation is the consistent mental and emotional energy that you emit in the form of thoughts feelings words and actions It s very important to remember that the phrase Law of Attraction contains the word ACTION Too many people on this spiritual path get caught up reading lots of books about the Law of Attraction attending numerous seminars

and hearing lectures about the Universal Law but they fail to use the powerful tools that will translate their desires from the invisible world of cause to the visible world of manifestation There are many books and audio programs on the market that explain what the Law of Attraction is and what it does but few that actually teach people how to use this creative power on a daily basis As a result this book will provide you with advanced manifestation techniques strategies insights and success stories that will help you quickly manifest your desires with the Law of Attraction Many students of the Law of Attraction have expressed concerns about being overwhelmed with all the manifestation books and study materials on the market A friend recently told me I went to a book store and saw so many Law of Attraction books that I couldn't decide which to buy Another friend said I know what the Law of Attraction is and what it does but I am having trouble understanding what I need to do each day to make it work for me I responded by telling my friend that she is not alone with her concerns There is a lot of information on the market explaining what the Law of Attraction does yet much of it fails to explain what must be done on a daily basis to make it work effectively As a result of these concerns I have written this book to guide readers through a series of real life daily scenarios that demonstrate what should be done each day in order to use the Law of Attraction effectively The people interviewed for this book are among hundreds of people whom I have met during the course of my spiritual journey I have met these wonderful people at seminars workshops lectures churches spiritual centers and through online forums on spirituality and personal growth These enlightened individuals are among my growing community of spiritual friends who have shared their insights and experiences with me and who comprise a growing support group of like minded people who understand the importance of self empowerment and spiritual evolution
