Rendsburg, 2017-03-02 An international array of twenty six scholars contributes twenty one essays to honor Ziony Zevit American Jewish University one of the foremost biblical scholars of his generation The breadth of the honoree is indicated by the breadth of coverage in these twenty one articles with seven each in the categories of history and archaeology Bible and Hebrew and Aramaic language **African languages from a Role and Reference Grammar perspective** Jens Fleischhauer, Claudius Patrick Kihara, 2023-05-08 The volume is a collection of papers which apply Role Reference Grammar RRG to African languages RRG is a functional theory of syntax which has been developed on the basis of two leading questions First how would a syntactic theory look like which starts from exotic languages rather than English Second how can the interaction between syntax semantics and pragmatics in different grammatical systems best modelled and explained Although RRG took linguistic diversity serious from its very beginning African languages have been underrepresented in the development of the theory Given the sheer number African languages deserve a wider coverage in a syntactic theory which takes linguistic diversity seriously The volume is intended to fill this gap and comprises a selection of papers which investigate different aspects related to the syntax semantics pragmatics interface of different African languages This includes argument doubling and dislocation in isiZulu complex referential phrases in G k y serial verb constructions in Igbo locative complements in Hausa and Zarma Chiine and focus constructions in Emai The papers will extent the current RRG approach to new languages and phenomena The Pedagogy of Compassion at the Heart of Higher Education Paul Gibbs, 2017-07-10 This book offers a moral rather than instrumental notion of university education whilst locating the university within society It reflects a balancing of the instrumentalization of higher education as a mode of employment training and enhances the notion of the students well being being at the core of the university mission Compassion is examined in this volume as a weaving of diverse cultures and beliefs into a way of recognizing that diversity through a common good offers a way of preparing students and staff for a complex and anxious world This book provides theoretical and practical discussions of compassion in higher education it draws contributors from around the world and offers illustrations of compassion in action through a number of international cases studies **Language and Institutional**

Identity in the Post-Apartheid South African Higher Education Leketi Makalela, 2022-03-21 This book examines the intersections between education identity formation and language in post apartheid South Africa with specific attention to higher education It does so against the backdrop of the core argument that the sector plays a critical role in shaping re producing and perpetuating sectoral class sub national and national identities which in turn in the peculiar South African setting are almost invariably analogous with the historical fault lines determined and dictated by language as a marker of ethnic and racial identity The chapters in the book grapple with the nuances related to these intersections in the understanding that higher education language policies overt and or covert largely structure institutional cultures or what has been described as curriculum in higher education institutions Together the chapters examine the roles played by higher education by language policies and by the intersections of these policies and ethnolinguistic identities in either constructing and perpetuating or deconstructing ethnolinguistic identities upon which the sector was founded The introductory chapter lays out the background to the entire book with an emphasis on the policy and practice perspectives on the intersections The middle chapters describe the so called White Universities Black Universities and Middle Man Minorities Universities The final chapter maps out future directions of the discourses on language and identity formation in South Africa s higher education

Language Policy and Planning in Universities Anthony J. Liddicoat, 2018-10-18 In a world where higher education is increasingly internationalised questions of language use and multilingualism are central to the ways in which universities function in teaching research and administration Contemporary universities find themselves in complex linguistic environments that may include national level language policies local linguistic diversity an internationalised student body increasing international collaboration in research and increased demand for the use and learning of international languages especially English The book presents a critical analysis of how universities are responding these complexities in different contexts around the world The contributions show that language issues in universities are complex and often contested as universities try to negotiate the national and the international in their work In some contexts universities language policies and the ways in which they are implemented may have a negative impact on their ways of working In other contexts however universities have embraced multilingualism in ways that have opened up new academic possibilities for staff and students Collectively the chapters show that universities language policy and planning are a work in progress and that much further work is needed for universities to achieve their language goals This book was originally published as a special issue of Current Issues in Language Planning

The Education Triple Cocktail Brahm Fleisch, 2018-08-15 The Education Triple Cocktail brings together rigorous quantitative and qualitative research on a new approach to improving foundational teaching and learning for schoolchildren living in working class poor and remote rural communities in resource constrained systems like South Africa At the core of this book is the theory and evidence for a powerful new interlocking and mutually reinforcing change model Inspired by the AIDS treatment story the three pronged approach of structured daily lesson plans

appropriate and high quality educational materials and one on one instructional coaching to help teachers transform their instructional practices in early grade classrooms shows that it will improve learning outcomes For education systems defined by low levels of early grade learning and profoundly unequal outcomes The Education Triple Cocktail offers a theoretically informed evidence based way forward This book will be of immense use to teachers students of Education policymakers and parents
