Kaunitz And Enlightened Absolutism 1753 178:

Kaunitz and Enlightened Absolutism 1753-1780 Franz A. J. Szabo, 1994-03-31 This is the first major archivally based study of the political career of Wenzel Anton Kaunitz State Chancellor of the Habsburg Monarchy from 1753 to 1792 Author of the diplomatic revolution of 1756 and a brilliant foreign minister of the Austrian Empire Kaunitz was virtually the third head of state under Maria Theresia and Joseph II He emerges from this study as the key figure in the development of enlightened absolutism in the Habsburg monarchy and the guiding spirit behind the modernization of the state

Languages of Reform in the Eighteenth Century Susan Richter, Thomas Maissen, Manuela Albertone, 2019-10-18 Societies perceive Reform or Reforms as substantial changes and significant breaks which must be well justified The Enlightenment brought forth the idea that the future was uncertain and could be shaped by human beings This gave the concept of reform a new character and new fields of application Those who sought support for their plans and actions needed to reflect develop new arguments and offer new reasons to address an anonymous public This book aims to compile these changes under the heuristic term of languages of reform It analyzes the structures of communication regarding reforms in the 18th century through a wide variety of topics Serenata and Festa Teatrale in 18th Century Europe Iskrena Yordanova, Paologiovanni Maione, 2018-06-25 This volume is dedicated to Serenata and Festa Teatrale in 18th Century Europe especially to the production of this music dramatic genre at the courts on the Iberian Peninsula in Italy and the Holy Roman Empire where it was an integral part of court ceremonies and a privileged ritual of repraesentatio maiestatis The 16 studies on patrons and artists exceptional events and local traditions reveal highly interesting material for the research on these up to now largely neglected genre Any approach to these works full of metaphors symbols and allusions has to take into account the context of the celebration and the resulting multiplicity of aspects choice of themes dramaturgical forms textual and musical structures vocal and instrumental ensembles and the various options regarding the stage apparatus Serenata and Festa Teatrale in 18th Century Europe edited by Iskrena Yordanova Lisbon and Paologiovanni Maione Naples inaugurates the series Cadernos de Queluz a subseries of Specula Spectacula by Don Juan Archiv Wien *Radical Enlightenment* Jonathan I. Israel, 2002-07-18 Arguably the most decisive shift in the history of ideas in modern times was the complete demolition during the late seventeenth and eighteenth centuries in the wake of the Scientific Revolution of traditional structures of authority scientific thought and belief by the new philosophy and the philosophes culminating in Voltaire Diderot and Rousseau In this revolutionary process which effectively overthrew all justification for monarchy aristocracy and ecclesiastical power as well as man's dominance over woman theological dominance of education and slavery substituting the modern principles of equality democracy and universality the Radical Enlightenment played a crucially important part Despite the present day interest in the revolutions of the late eighteenth century the origins and rise of the Radical Enlightenment have been astonishingly little studied doubtless largely because of its very wide international sweep

and the obvious difficulty of fitting in into the restrictive conventions of national history which until recently tended to dominate all historiography The greatest obstacle to the Radical Enlightenment finding its proper place in modern historical writing is simply that it was not French British German Italian Jewish or Dutch but all of these at the same time In this novel interpretation of the Radical Enlightenment down to La Mettrie and Diderot two of its key exponents particular stress is placed on the pivotal role of Spinoza and the widespread underground international philosophical movement known before 1750 as Spinozism

Iron and Blood Peter H. Wilson, 2023-02-14 From the author of the acclaimed *The Thirty Years War* and *Heart of Europe* a masterful landmark reappraisal of German military history and of the preconceptions about German militarism since before the rise of Prussia and the world wars German military history is typically viewed as an inexorable march to the rise of Prussia and the two world wars the road paved by militarism and the result a specifically German way of war Peter Wilson challenges this narrative Looking beyond Prussia to German speaking Europe across the last five centuries Wilson finds little unique or preordained in German militarism or warfighting *Iron and Blood* takes as its starting point the consolidation of the Holy Roman Empire which created new mechanisms for raising troops but also for resolving disputes diplomatically Both the empire and the Swiss Confederation were largely defensive in orientation while German participation in foreign wars was most often in partnership with allies The primary aggressor in Central Europe was not Prussia but the Austrian Habsburg monarchy yet Austria's strength owed much to its ability to secure allies Prussia meanwhile invested in militarization but maintained a part time army well into the nineteenth century Alongside Switzerland which relied on traditional militia both states exemplify the longstanding civilian element within German military power Only after Prussia's unexpected victory over France in 1871 did Germans and outsiders come to believe in a German gift for warfare a special capacity for high speed high intensity combat that could overcome numerical disadvantage It took two world wars to expose the fallacy of German military genius Yet even today Wilson argues Germany's strategic position is misunderstood The country now seen as a bastion of peace spends heavily on defense in comparison to its peers and is deeply invested in less kinetic contemporary forms of coercive power

Messerschmidt's Character Heads Michael Yonan, 2017-09-22 This book examines a famous series of sculptures by the German artist Franz Xaver Messerschmidt 1736-1783 known as his *Character Heads* These are busts of human heads highly unconventional for their time representing strange often inexplicable facial expressions Scholars have struggled to explain these works of art Some have said that Messerschmidt was insane while others suggested that he tried to illustrate some sort of intellectual system Michael Yonan argues that these sculptures are simultaneously explorations of art's power and also critiques of the aesthetic limits that would be placed on that power

Double Emperor Chip Wagar, 2018-10-15 For forty three years Francis I of Austria ruled a vast heterogeneous Empire that came to dominate the continent of Europe Ascending Charlemagne's thousand year throne of the Holy Roman Empire at the age of twenty four on the unexpected death of his father this scion of the ancient Habsburg dynasty became the first

Emperor of Austria and for two years the only Double Emperor in history Both the father in law of Napoleon Bonaparte and his chief rival for dominance of the continent of Europe Francis eventually led a coalition of nations to Paris in 1814 and sent Napoleon into exile The exiled Napoleon's only son and heir lived with his grandfather thereafter in Vienna until his tragic early death Kings ministers generals and the glitterati of Europe gathered under his watchful eye at the Congress of Vienna to decide the fate of a continent in the wake of the Napoleonic Wars in which he played a pivotal role The Congress saw the emergence of his new Austrian Empire as the most dominant power in continental Europe until long after his death twenty years later A devoted husband father and grandfather his modest lifestyle and simple tastes that set the tone of the Biedermeier era concealed a complex and calculating ruler whose initial cautious liberalism gradually evolved into a stoic conservatism No other life biography in English has been written about this mysterious but powerful figure of early 19th century Europe whom Metternich and Radetzky called their master Europäische Aufklärung zwischen Wien und Triest Karl Graf von Zinzendorf, Grete Klingenstein, Eva Faber, Antonio Trampus, 2009 **Arts and Humanities Citation Index**, 1995 **Humanities Index**, 1997 **Belgisch tijdschrift voor philologie en geschiedenis**, 2001 *Enlightened Absolutism* H.M. Scott, 1990-03-05 Each book in this series is designed to make available to students important new work on key historical problems and periods that they encounter Each volume devoted to a central topic or theme contains specially commissioned essays from scholars in the relevant field These provide an assessment of a particular aspect pointing out areas of development and controversy and indicating where conclusions can be drawn or where further work is necessary while an editorial introduction reviews the problem or period as a whole In this text the contributors assess reform and reformers in late 18th century Europe covering such topics as Catherine the Great the Danish reformers the Habsburg Monarchy and events in Spain and Italy *Enlightened Absolutism, 1760-1790* Antony Lentin, 1985 **Absolutism and Enlightenment 1660-1789** Ronald Walter Harris, 1967 **The Problem of Enlightened Absolutism** Henry E. Strakosch, 1970 Enlightened Despotism Fritz Hartung, 1963 Enlightened Absolutism. Reform and Reformers in Later Eighteenth-century Europe H. M. Scott, 1990 *Power and Law in Enlightened Absolutism* Milan Kuhli, 2012 The term Enlightened Absolutism reflects a certain tension between its two components This tension is in a way a continuation of the dichotomy between power on one hand and law on the other The present paper shall provide an analysis of these two concepts from the perspective of Carl Gottlieb Svarez who in his position as a high ranking Prussian civil servant and legal reformist has had unparalleled influence on the legislative history of the Prussian states towards the end of the 18th century Working side by side with Johann Heinrich Casimir von Carmer who held the post of Prussian minister of justice from 1779 to 1798 Svarez was able to make use of his talent for reforming and legislating From 1780 to 1794 he was primarily responsible for the elaboration of the codification of the Prussian private law the Allgemeines Landrecht für die Preussischen Staaten in 1794 In the present paper Svarez approach to the relation between law and power shall be analysed on two different levels

Firstly on a theoretical level the reformist s thoughts and reflections as laid down in his numerous works papers and memorandums shall be discussed Secondly on a practical level the question of the extent to which he implemented his ideas in Prussian legal reality shall be explored **Absolutism and the Scientific Revolution, 1600-1720** Christopher Paul Baker,2002
