other countries that same model would be identified as either a CB400K2 or CB400F1 Setting this potential for confusion aside we can state that this manual covers the entire 1972 through 1977 range of 350cc and 400cc four cylinder models Finally please note that the text in the original Honda Factory Workshop Manual was translated from Japanese into English Consequently some of the phrasing grammar punctuation and word usage may be subtly different from that commonly used in the English language However the information as presented is readily understandable In addition while we have done our best to identify any anomalies errors and incorrect spelling that may have occurred during the original translation process we are certain that we will have missed one or two and we request your indulgence in ignoring them
