The Little Prince Antoine de Saint-Exupéry, Antoine de Saint-Exupéry, 2020-01-14 The Little Prince French Le Petit Prince is an allegorical fable and the most famous work of Antoine de Saint-Exupéry It was first published in April 1943 by publisher Reynal a city he fled to after the occupation of his native France by Nazi Germany The literary roots of the fable are based on the wandering plot of the rejected prince while the emotional one is a child's view of the world The story line is built around the travels of the Little Prince who hails from the tiny planet B 612 Gradually his journey becomes not just the literal movement from planet to planet but more of a way to discover life and the world Thanks to Saint-Exupéry's artistic methods adult readers see in the fable a transcript of a conversation of two old friends while children get a vivid and easily understandable description of the world that surrounds them Due mostly to these two factors The Little Prince has achieved such high levels of recognition and popularity
