Le Tarot Me Parle Deacutevolution:

Evolution Through the Tarot Richard Gardner, 1981-12-01 **Origins of the Tarot** Dai Leon, 2012-05-29 Conventional wisdom traces Tarot cards to medieval Italy but their roots go back much further in time and draw on a surprisingly rich variety of cultures and spiritual traditions Combining pioneering scholarship with practical spiritual instruction *Origins of the Tarot* is the first book to unveil the full range of the ancient streams of wisdom from which the Tarot emerged The timeless principles of conscious realization and cosmological unfoldment underlying the Tarot have never been explored in a comparably extensive and detailed way herein the teachings of a tremendous range of traditions including Kabbalah Western esotericism and alchemy Buddhism Taoism yogic disciplines Sufism mystical Christianity Gnosticism and Neoplatonism are masterfully incorporated and synthesized Author Dai L on explores a confluence of philosophical schools from East and West as they relate to the Tarot giving each its due in the exposition of a universal procession of evolution and the soul's quest for enlightenment In the process the Tarot is seen as a unique exemplification of perennial teachings on the soul and its liberation as well as a still unfolding window into concealed currents of human history The book's profound learning and unprecedented range of references are sure to attract close study among students both of the world's most enduring esoteric tradition and of esotericism itself
