Kids Speedy Publishing LLC, 2015-04-24 Introduce your child to the wonders of the cosmos. Start with the moon and a moon journal. Your children will have fun watching the phases of the moon and recording them every night. Nightly moon watching could become a better alternative to counting sheep to help them sleep. By keeping a journal, you are already training your child to love astronomy too. Explorers Journal Ernest Ingersoll, 1966 Ten Letters Eli Saslow, 2012-08-07 Every day President Obama read ten of the letters he received from citizens across America. Here are ten of those letters along with President Obama's responses and the stories behind them. From the Pulitzer Prize-winning reporter, the letters come from people of all ages, walks of life, and political points of view. Some are heart-breaking, some angry, some hopeful. Indeed, Obama reads as many letters addressed "Dear Jackass" as "Dear Mr. President." Eli Saslow, a young and rising star at the Washington Post, became fascinated by the power of these letters and set out to find the stories behind them. Through the lens of ten letters to which Obama responded personally, this exceptionally relevant and poignant book explores those individual stories, taking an in-depth look at the misfortunes, needs, opinions, and yes, anger over the current state of the country that inspired ten people to put pen to paper. Surprisingly, what also emerges from these affecting personal narratives is a story about the astounding endurance and optimism of the American people. *Ten Letters* is an inspiring and important book about ordinary people and the issues they face every day, the very issues that are shaping America's future. This is not an insider Washington book by any means, but a book for the times that tells the real American stories of today. *Australian Farm Journal*, 1991
