Creating Homes That Sustain Our Lives, Economy, and the Earth Dr. John H. Fitch, 2020-03-23 Would you like to live in a comfortable well insulated sustainable home that costs no more to build than a conventional home Would you like this home to be capable of providing its own heating and cooling systems with utilities bills of less than 10 % per month compared to what they would cost in a conventional home Would you like the energy used for heating cooling lighting and cooking to be from renewable sources such as the sun and or wind that are available right on your property Would you like to be able to sell your unused power back to the electric grid Would you like to know that the comfortable sustainable home in which you are living is sustaining your pocketbook And finally would you like to know that your home is also helping to sustain the Earth by using non polluting renewable energy sources and building materials If you answer yes to even one of these questions you should read this book I know this sounds too good to be true That is exactly how I felt when I first became interested in sustainable homes As a scientist I am by no means a person with the skills necessary to build such a home But as I discovered more about sustainable homes and their advantages I decided I had to try having a sustainable home built for myself I also learned you can build sustainably no matter whether you are in town in suburbia or in a rural area I am writing this book for several audiences First if you are interested in any or all of the benefits of sustainable homes this book is definitely for you It will give you information on available sustainable technologies how to select an appropriate area in which to build and a site in that area that would be good for building how to select a good architect a knowledgeable engineer a reliable sustainable builder and crew how to obtain financing how to work with inspectors and how to integrate different sustainable technologies and equipment into the home This book will also be helpful to people who are considering

joining the growing sustainability infrastructure of architects loan officers engineers builders building suppliers computer engineers and natural landscape experts These experts are creating the foundation for a sustainable construction industry This is a new exciting and expanding cooperative of experts who enjoy innovative and challenging opportunities The sustainability approach allows us to integrate and balance environmental economic and societal considerations
