Music Report Card Comments Preschool:

Developing Standards-Based Report Cards Thomas R. Guskey, Jane M. Bailey, 2009-11-17 Guskey and Bailey offer realistic solutions to improving how educators communicate a student's academic progress to all stakeholders. Their work provides a faculty with the research step by step guidelines and reporting templates to begin the dialogue to develop a standards based report card. Without a doubt this work is a model for schools that want to improve their system of grading and reporting. It certainly has transformed ours. Jeffrey Erickson, Assistant Principal, Minnetonka High School, MN. Develop standards based report cards that are meaningful to students, parents, and educators. Although schools have moved toward standards based curriculum and instruction, grading practices and reporting systems have remained largely unchanged. Helping school leaders gain support for transitioning from traditional to standards based report cards, this book guides educators in aligning assessment and reporting practices with standards based education and providing more detailed reports of children's learning and achievement. A standards based report card breaks down each subject area into specific elements of learning to offer parents and educators a more thorough description of each child's progress toward proficiency. This accessible volume provides a clear framework for developing standards based report cards. Shows how to communicate with parents, students, and other stakeholders about changes. Illustrates how to achieve grading consistency without increasing teachers' workloads or violating their professional autonomy. Filled with examples of standards based report cards that can be adapted to a school's needs, this practical resource shows district and school administrators how to establish reporting practices that facilitate learning.

The Other Side of the Report Card Maurice J. Elias, Joseph J. Ferrito, Dominic C. Moceris, 2015-12-14 To better serve the whole child, look at the whole report card. Although parents and teachers spend more time in conferences talking about behavior than they do about rubrics and test scores, too many teachers are still guessing when it comes to using outdated behavior ratings and comments to describe the whole child. With this book, you'll take report cards to the next level, integrating social emotional learning and character development into any grading system. Resources include Guided exercises for analyzing existing report cards, suggested report card designs, tips on improving teacher-parent communication, case studies, testimonials from teachers and students.
