law in risk management in Nigeria Matthias Okoro,2014-10-01 Seminar paper from the year 2012 in the subject
 Environmental Sciences grade A University of Nigeria CENTER FOR ENVIRONMENTAL MANAGEMENT AND CONTROL
 course ENVIRONMENTAL MANAGEMENT AND CONTROL language English abstract In ideal risk management a
 prioritization process is followed whereby the risks with the greatest loss or impact and the greatest probability of occurring
 are handled first and risks with lower probability of occurrence and lower loss are handled in descending order In practice
 the process of assessing overall risk can be difficult and balancing resources used to mitigate between risks with a high
 probability of occurrence but lower loss versus a risk with high loss but lower probability of occurrence can often be

mishandled Intangible risk management identifies a new type of a risk that has a 100% probability of occurring but is ignored by Government or organization due to a lack of identification ability In Nigeria some time this is what is obtainable in the social and physical environment In view of the above fact environmental laws have been put in place to regulate every activity on the environment to manage the risk involved in these process and stage of development in other to avoid an impending or a looming catastrophe According to the International Network for Environmental Compliance and Enforcement INECE the major environmental issues in Nigeria are drought and flooding air pollution deforestation loss of biodiversity freshwater availability degradation of soil and vegetation and widespread poverty Government and other organizations hope to provide protection and mitigation regarding pollution and other disasters before their impacts contaminate the African environment as well as the global environment Therefore chronicled in this write up is the appraisal of the role of Environmental Law in risk management

Risk Management for Nokia Rieke Hinrichs,2013-05-23 Research Paper undergraduate from the year 2013 in the subject Business economics Business Management Corporate Governance grade 1 First 82 % New College Durham language English abstract Tremendous events like 9 11 the huge property banking debt euro crises failing projects like Heathrow Terminal 5 or the instable political situation in many countries of the Middle East just a few examples of events that have made people and organisations more aware of risks and uncertainty Therefore risk management has been gaining more and more in importance since the 1970s and is included in most organisations policy nowadays Merna Al Thani 2008 p 40 Online However even if the connotation of the word risk in our everyday language is quite negative risks do not just mean threats also called downside risks but they can also provide opportunities upside risks Woods 2011 p 22 Consequently avoiding a risk may mean avoiding a potentially huge opportunity Frame 2003 Online which makes risk management a complex matter that is essential to be considered thoroughly by every organisation that is interested in longterm profitability

Risk Management in Regulatory Frameworks Lorenza Jachia,Valentin Nikonov,2012 Recent years have been marked by many catastrophic events both natural and man made Close interconnections mean that the impact of these crises has been felt throughout the world Although many tools have been developed to manage risks successfully there can be no doubt that many of the losses we have recently witnessed could have been prevented or minimised in the context of an effective and well balanced regulatory system The goal of this publication is to provide insights and recommendations for policymakers on designing regulatory systems that result in an efficient effective and transparent management of risks This is a practical book It introduces a holistic model of a regulatory system function by function and with real life examples which is based on the objective of managing risks effectively
