Treaties and Other International Acts Series ,1946 Economic Cooperation with Korea Under Public Law 793, 80th Congress United States,1949 **Les filets sociaux en Afrique** Carlo Del Ninno,Bradford Mills,2015-06-25 The need for safety nets in Sub Saharan Africa is vast In addition to being the world s poorest region Sub Saharan Africa is also one of the most unequal In this context redistribution must be seen as a legitimate way to fight poverty and ensure shared prosperity and all the more so in countries where growth is driven by extractive industries that are not labor intensive and often employ very few poor people Given that most African countries face difficult decisions about how to allocate limited resources among a number of social programs evidence is important Do Safety Net programs actually benefit the poorest people This book demonstrates with empirical evidence that it is possible to reach the poorest and most vulnerable people with safety net programs and provides lessons for the effective use of targeting methods to achieve this outcome in the region **Les jeunes non scolarisés d'Afrique subsaharienne** Keiko Inoue,Emanuela di Gropello,Yesim Sayin Taylor,James Gresham,2015-07-14 The economic and social prospects are daunting for the 89 million out of school youth who comprise nearly half of all youth in Sub Saharan Africa Within the next decade when this cohort becomes the core of the labor market an estimated 40 million more youth will drop out and will face an uncertain future with limited work and life skills Furthermore out of school youth often are policy orphans positioned between sectors with little data low implementation capacity lack of interest in long term sustainability of programs insufficient funds and little coordination across the different government agencies This report provides a diagnostic analysis of the state of out of school youth in Sub Saharan Africa focusing on the 12 to 24 year old cohort This report also examines the decision path youth take as they progress through the education system and the factors that explain youth s school and work choices It finds that individual and household characteristics social norms and characteristics of the school system all matter in understanding why youth drop out and remain out of school In particular six key factors characterize out of school youth i most out of school youth drop out before secondary school ii early marriage for female youth and iii rural residence increase the likelihood of being out of school iv parental education level and v the number of working adults are important household factors and vi lack of school access and low educational quality are binding supply side constraints Policy discussions on out of school youth are framed by these six key factors along with three entry points for intervention retention remediation and integration This report also reviews policies and programs in place for out of school youth across the continent Ultimately this report aims to inform public discussion policy formulation and development practitioners actions working with youth in Sub Saharan Africa Hygie ,1992 **Les Politiques alimentaires en Afrique du Nord** Martine Padilla,1995-01-01 Depuis 30 ans les pays du nord de l Afrique ont connu un essor conomique remarquable et ont inscrit comme objectif politique fondamental la lutte contre la sous alimentation et la malnutrition Parmi les moyens utilis s tous ont opt pour un syst me de subventions g n ralis es avec un
