Joni Katherine Monk, 2012-09-07 From the moment Joni Mitchell's career began with coffee house bookings serendipitous encounters with established stars and a recording contract that gave her full creative control over her music the woman from the Canadian wheat fields has eluded industry clichés When her peers were focused on feminism Mitchell was plumbing the depths of her own human condition When arena rock was king she turned to jazz When all others hailed Bob Dylan as a musical messiah Mitchell saw a fraud burdened with halitosis Unafraid to write in her own blood regardless of the cost Mitchell has been vilified as a diva and embraced as a genius but rarely has she been recognized as an artist and a thinker This new portrait of the reclusive icon examines how significant life events failed relationships the surrender of her infant daughter debilitating sickness have influenced her creative expression Author Katherine Monk captures the rich legacy of her multifaceted subject in this offbeat account weaving in personal reflections and astute cultural observations and revealing the Mitchell who remains misunderstood

Programming Reality Zoë Druick, Aspa Kotsopoulos, 2008-08-01
Programming Reality Perspectives on English Canadian Television the first anthology dedicated to analyses of Canadian television content is a collection of original interdisciplinary articles combining textual analysis and political economy of communications It explores the television that has thrived in the Canadian regulatory and cultural context namely programs that straddle the border between reality and fiction or even blur it The conceptual basis of this collection is the hybrid nature of television fare the widely theorized notion that all mediations of reality involve fiction in the form of narrative or symbolic shaping Each of the contributions here is a reminder too of the significant relationship of television to nation building in Canada to the imaginative work involved in thinking through the relations that constitute nations citizens and communities The collection focuses on English language Canadian television because the imperatives guiding its texts are markedly different from those pertaining to their French language counterparts The collection therefore develops a nuance of perspective on the cultural and political economic specificities that inform the imaginative work of television production for English Canada
