

Moral values, ethics and philosophy

5 pages | 1231 words

The dream of a child starts with a stereo type suggestion from parents that the baby will be a doctor - engineer. The baby has no other option to dream of being doctor or engineer. Our education system was framed by the British rulers to create civil servants to serve their purpose. They had created dreams of civil service. As a legacy of the British and the Pakistani system we inherited Bangladesh Civil Service (BCS). However, the glory of civil service has been fading gradually. Education system at home and abroad now aims at creating good executives. The present dream of the youngsters is to find jobs in mobile phone company.

Considering the good market, the private entrepreneurs established a number of private universities where degrees are offered on Computer science, Engineering, Medical Science and Business Administration. These universities have less interest in social science. Philosophy is a less prioritised subject in the university and hardly any student is found having interest to study Philosophy.

The people living in the 21st century have no time to waste in a very ancient field of study like philosophy. People now send their children to universities to groom them up as future executives in Multinational companies. Students are more interested to obtain professional degrees rather than education in social science. The new generation has different attitude towards life style, human relation, demand and satisfaction.

We can not live alone. The world is one family and living in this planet demands co-operation with others. Philosophy teaches the discipline of humanity. It defines how to think, how to reason, how to put together good arguments, how to analyse alternatives and action and evaluate its consequences.

Human society creates ideas and thoughts; philosophy guides principle of human life. Without it, there can be no real government, no institution. It is philosophy that has created human ideologies, interpretations, and viewpoints. Philosophy is at the heart of every issue, at the center of every change within society, and within every radical movement human beings have created. Any tradition, any ideology, any religion has behind them a philosophy. The problem perhaps is that common people in today's society do not like complicated thoughts, the moment they see an obstacle, they scream in rage, they want the simplistic philosophy of a society that consumes and moves and moves and never stops.

The consumption loving practical people believe that there is no particular use for philosophy, because it deals with intangible ideas, which cannot be proved scientifically or verified objectively, and which have nothing to do with providing greater creature comforts or material progress.

The teaching starts with parents telling what it is wrong to lie, cheat, and steal. These children grow up and enter into the real world with some knowledge of right and wrong. But ethics are learnt throughout our lives as we associate with others. In the work place, people learn responsibility, teamwork, punctuality, and communication skills.

Sliwinski, 2012-12-06 Stig Kanger 1924-1988 made important contributions to logic and formal philosophy. Kanger's dissertation *Provability in Logic* (1957) contained significant results in proof theory as well as the first fully worked-out model-theoretic interpretation of quantified modal logic. It is generally accepted nowadays that Kanger was one of the originators of possible worlds semantics for modal logic. Kanger's most original achievements were in the areas of general proof theory, the semantics of modal and deontic logic, and the logical analysis of the concept of rights. He also contributed to action theory, preference logic, and the theory of measurement. This is the first of two volumes dedicated to the work of Stig Kanger. The present volume is a complete collection of Kanger's philosophical papers. The second volume contains critical essays on Kanger's work as well as biographical essays on Kanger written by colleagues and friends. *Ethics after Anscombe* D.J. Richter, 2013-03-09 How, if at all, can we do moral philosophy in the light of the radical critique made by Elizabeth Anscombe in *Modern Moral Philosophy*? Among the principal theses of this essay is that ethical thinking, that of philosophers and others, suffers from a widespread appeal to incoherent uses of terms such as obligation, ought, right, and wrong. In this book, I first explain and evaluate her thesis and the argument for it, and I then confront the challenge it poses: what ways are there of doing moral philosophy that avoid the kind of incoherence to which she has drawn our attention? The best way to show how it is possible for us to think about ethics is to demonstrate

how to do so using actual cases This book therefore combines the critical study of central theoretical issues about ethics in the first half with concrete examination of serious practical issues in the second Following Dostoyevsky s Ivan Karamazov it is often said that if God does not exist then everything is permitted This is not literally the case since God cannot permit anything if He does not exist and those of us who do exist do not permit everything or at least our parents employers and governments do not It is true though that if God does not exist then nothing is forbidden in the traditional sense of forbidden

The Is-ought Question William Donald Hudson,1972 **Dublin Examination Papers** Trinity College (Dublin, Ireland),1913 Calendar University of Cambridge,1870 Examinations Papers ,1886 Ethics through Corporate Strategy Daniel R. Gilbert,1996-09-19 Ethics Through Corporate Strategy is a daring challenge to anyone who uses the customary language of business in America It is daring because Daniel Gilbert argues that we should discard two popular ways of linking business and ethics It is challenging because Gilbert proceeds from the premise that everyone who uses a language of business is responsible for the ethical implications of that way of talking This work is one demonstration of how we can relocate conversations about business in the larger conversation that we know as liberal education The Aberdeen University Calendar University of Aberdeen,1927 **The Fortnightly Review** ,1884 **The Cambridge University Calendar** University of Cambridge,1908 **Calendar** University of Calcutta,1929 Includes Examination Papers **The Calendar** University of Calcutta,1909 *Bombay University Calendar: Calendar* University of Bombay,1922 *Cambridge University Examination Papers* ,1876 *The Bombay University Calendar* University of Bombay,1906 **Glasgow University Calendar** University of Glasgow,1900
