Survival Adam Y. Stern, 2021-03-26 For a world mired in catastrophe nothing could be more urgent than the question of survival In this theoretically and methodologically groundbreaking book Adam Y Stern calls for a critical reevaluation of survival as a contemporary regime of representation In *Survival* Stern asks what texts what institutions and what traditions have made survival a recognizable element of our current political vocabulary The book begins by suggesting that the interpretive key lies in the discursive prominence of Jewish survival Yet the Jewish example he argues is less a marker of Jewish history than an index of Christianity's impact on the modern secular political imagination With this inversion the book repositions Jewish survival as the supplemental effect and mask of a more capacious political theology of Christian survival The argument proceeds by taking major moments in twentieth century philosophy theology and political theory as occasions for collecting the scattered elements of survival's theological political archive Through readings of canonical texts by secular and Jewish thinkers Hannah Arendt Walter Benjamin Franz Rosenzweig and Sigmund Freud Stern shows that survival belongs to a history of debates about the sovereignty and subjection of Christ's body Interrogating survival as a rhetorical formation the book intervenes in discussions about biopolitics secularism political theology and the philosophy of religion

Souls with Longing Dustin A. Gish, Bernard J. Dobski, 2011-11-21 The works of William Shakespeare vividly represent for our admiration and study a pageant of souls with longing in whose wake we ceaselessly follow Through some of his most memorable characters Shakespeare illuminates the nature and character as well as consequences of our distinctively human passions and ambition in particular our desire for and pursuit of both honor and love The contributors to this collaborative

volume scholars in English Literature Political Philosophy and the Humanities argue that Shakespeare has much to teach us about our longing for honor and love in particular and thus about who we are what we desire and why Through sustained reflection on the Shakespearean portraits of honor and love which are the focus of the chapters in *Souls With Longing* we become more keenly aware of our own humanity and come to know ourselves more profoundly As the abiding popularity of his works aptly demonstrates Shakespeare's unforgettable portraits of souls with longing his representations of honor and love continue to exert undeniable sway over our political moral and romantic imaginations **Helps for Translators**, 1973

Finitude takes this staple subject from post Heideggerian philosophy and opposes it to the onto theological concept of infinity represented by an eternal absolute Although critical of Heidegger and his definition of finitude as being towards death this book does not revert to the ontological idea of infinity secured in the sacred image of immortality But it also does not want to give up on infinity altogether the infinite is transposed so it can become a necessary moment of the finite life A theological framework for the new elaboration of the concept of finitude is crucial but instead of following the Lutheran formula Agata Bielik Robson turns to the sources of Judaism Taking inspiration from the Jewish idea of *torat hayim* the principle of finite life which found the best expression in the biblical sentence *love strong as death* love emerges as the alternative marker of finitude allowing to us redefine it in an affirmative way By tracing the avatars of love in the group of 20th century thinkers or messianic vitalists Benjamin Rosenzweig Arendt Derrida and deeply revised Freud the book attempts to demonstrate the possibility of such affirmation Love becomes the new infinite in the finite love in all its forms from the original libidinal endowment of the human psyche to the last metamorphoses of *agape* the Greco Christian divine love *The Anabasis*
