

Overview

The murder mystery revolves around the sudden death of Howard Ferguson, a famous movie director. Howard is found dead at his lavish party, and many of the guests have a motive to see him gone.

Howard was poisoned. The poison was mixed into his drink at the party. A note written on the map on the wall at the crime scene reads, "She should be with me," adding to the mystery.

The Killer and Motive

Frank Ferguson, Howard's brother, is the killer. Frank killed Howard because Howard ran over and killed Frank's beloved dog, Pippy, one week before the party. This was an accident, but something Howard never admitted to, causing Frank to seek revenge.

Timeline - Dog's Death

A report from a private investigator can be found on Frank's phone. It follows Howard's movements on 24 October.

On 24 October, Howard Ferguson took his car to a local garage for some electrical repairs. He dropped it off and returned to his home by taxi at 3:20 PM.

Here he borrowed the car of his full time bartender, Hank Brindle.

At the same time, Pippy (Frank's dog), escaped from Frank's back garden and ran to Howard's house.

When leaving his home in Hank's car, Howard accidentally hit and killed the dog. Hank saw him putting Pippy in the car, but didn't know what had happened.

Howard then drove to Tamarind Avenue, where Frank lives, and dropped the body of the dog on the road for Frank to find later.

There are many other motives to kill Howard amongst the other characters. They are simply distractions. Only students that really pay attention and share information between groups will have a chance of solving the murder.
