*Social Change and Development* ,1993      Report of the Comptroller and Auditor-General for the Financial Year Ended ...  
Zimbabwe,1982      *Letters from America* K. Nyamayaro Mufuka,1997      *Hearings* United States. Congress. House.  
Committee on Un-American Activities,1957      Education and Development in Zimbabwe Edward Shizha,Michael T.  
Kariwo,2012-01-01 The book represents a contribution to policy formulation and design in an increasingly knowledge  
economy in Zimbabwe It challenges scholars to think about the role of education its funding and the egalitarian approach to  
widening access to education The nexus between education democracy and policy change is a complex one The book  
provides an illuminating account of the constantly evolving notions of national identity language and citizenship from the  
Zimbabwean experience The book discusses educational successes and challenges by examining the ideological effects of  
social political and economic considerations on Zimbabwe s colonial and postcolonial education Currently literature on  
current educational challenges in Zimbabwe is lacking and there is very little published material on these ideological effects  
on educational development in Zimbabwe This book is likely to be one of the first on the impact of social political and  
economic meltdown on education The book is targeted at local and international academics and scholars of history of  
education and comparative education scholars of international education and development undergraduate and graduate  
students and professors who are interested in educational development in Africa particularly Zimbabwe Notwithstanding the  
book is a valuable resource to policy makers educational administrators and researchers and the wider community Shizha  
and Kariwo s book is an important and illuminating addition on the effects of social political and economic trajectories on  
education and development in Zimbabwe It critically analyses the crucial specifics of the Zimbabwean situation by providing  
an in depth discourse on education at this historical juncture The book offers new insights that may be useful for an  
understanding of not only the Zimbabwean case but also education in other African countries Rosemary Gordon Senior  
Lecturer in Educational Foundations University of Zimbabwe Ranging in temporal scope from the colonial era and its elitist  
legacy through the golden era of populist universal elementary education to the disarray of contemporary socioeconomic  
crisis covering elementary through higher education and touching thematically on everything from the pernicious effects of  
social adjustment programmes through the local deprofessionalization of teaching this text provides a comprehensive wide  
ranging and yet carefully detailed account of education in Zimbabwe This engagingly written portrayal will prove  
illuminating not only to readers interested in Zimbabwe s education specifically but more widely to all who are interested in  
how the sociopolitical shapes education how ideology policy international pressures economic factors and shifts in values  
collectively forge the historical and contemporary character of a country s education Handel Kashope Wright Professor of
