philanthropy can reveal about the role of corporate and wealth elites in upholding the structures of socioeconomic inequality that continue to define Brazilian society The book argues that around the world the private sector's growing engagement in international development has led to the emergence of a global philanthropic project centred on practices of philanthrocapitalism and social finance which ultimately seeks to legitimise global capitalism and the elite interests it serves Drawing on an in depth and wide ranging ethnographic study among philanthropists and their advisors in over 30 Brazilian foundations and intermediary organisations the book combines a structural critique of the capitalist ideologies underlying philanthropic practice with a robust exploration into the ways in which wealthy Brazilians appropriate philanthropy directly to legitimise elite reproduction and the accumulation of wealth Researchers across Latin American studies development studies and the anthropology of development will find this book a timely contribution to the under researched areas of elite studies and the study of philanthropy

The Devil's Fruit Dvera I. Saxton, 2021-02-12 *The Devil's Fruit* describes the facets of the strawberry industry as a harm industry and explores author Dvera Saxton's activist ethnographic work with farmworkers in response to health and environmental injustices She argues that dealing with devilish as in deadly depressing disabling and toxic problems requires intersecting ecosocial emotional ethnographic and activist labors Through her work as an activist medical anthropologist she found the caring labors of engaged ethnography take on many forms that go in many different directions Through chapters that

examine farmworkers embodiment of toxic pesticides and social and workplace relationships Saxton critically and reflexively describes and analyzes the ways that engaged and activist ethnographic methods frameworks and ethics aligned and conflicted and in various ways helped support still ongoing struggles for farmworker health and environmental justice in California These are problems shared by other agricultural communities in the U S and throughout the world
