**Handbook of Sexuality-Related Measures** Robin R. Milhausen, John K. Sakaluk, Terri D. Fisher, Clive M. Davis, William L. Yarber, 2019-06-25 This classic and invaluable reference handbook written for sex researchers and their students has now been completely revised in a new fourth edition. It remains the only easy and efficient way for researchers to learn about evaluate and compare instruments that have previously been used in sex research. *Handbook of Sex Therapy* Joseph LoPiccolo, Leslie LoPiccolo, 2012-12-06 When is it timely to publish a synthesis of previously published and original materials from a specific discipline? I believe it to be timely when one has a sufficient amount of high quality material covering the critical areas of that topic when the previously published material is scattered over a wide range of journals and books and when there is no single book that synthesizes the discipline. The treatment of sexual dysfunction emerged to the front lines of health delivery only during the past decade with the pioneering work of William Masters and Virginia Johnson. In spite of the rash of sex clinics and sex therapists that followed, precious little solid research has been conducted on the various strategies of therapy, the means of assessing complex interpersonal sexual relationships and the manner by which clinical change is objectively assessed. No one reader can keep pace with the multitude of journals that publish key material by sophisticated investigators. And no one investigator can cover these salient areas alone with his or her original work in a single volume. The critical papers have now been written. Ten were written specifically for this volume and thirty three have previously appeared. This volume laces them together into a coherent pattern. Thus the time for a synthesis in sexual dysfunction. The Case of the Female Orgasm Elisabeth A. Lloyd, 2009-07 Why women evolved to have orgasms when most of their primate relatives don't is a persistent mystery among evolutionary biologists. In pursuing this mystery, Lloyd arrives at another. How could anything as inadequate as the evolutionary explanations of the female orgasm have passed muster as science. **For Men and Women Sexual Information** M. TOKER, 2022-04-17 **Medical Aspects of Human Sexuality** Harold I. Lief, 1975 The Hite Report Shere Hite, 2003-11-04 A reproduction of the classic text unavailable now for more than a decade with a new introduction by the author. The Hite Report first published in 1976 was a sexual revolution in six hundred pages. To answer sensitive questions dealing with the most intimate details of women's sexuality, Hite's innovation was simple: she asked women a lot of them everything and published the results. One hundred thousand women ages fourteen to seventy-eight were asked what they do and don't like about sex, how orgasm really feels with and without intercourse, how it feels not to have an orgasm during sex, the importance of clitoral stimulation and masturbation, and to name the greatest pleasures and frustrations of their sexual lives among many other questions. The Hite Report declares that orgasm is easy and strong for women given the right stimulation; that most women have orgasm most easily during masturbation or clitoral stimulation by hand; that sex as we define it is a cultural institution, not a biological one; and that attitudes must change to include the stimulation women desire. **Human Sexuality 81/82** Ollie Pocs, 1981 *International Handbook of Behavior*

*Modification and Therapy* Alan S. Bellack, Michel Hersen, Alan E. Kazdin, 2012-12-06 It is particularly gratifying to prepare a second edition of a book because there is the necessary implication that the first edition was well received. Moreover, now an opportunity is provided to correct the problems or limitations that existed in the first edition as well as to address recent developments in the field. Thus we are grateful to our friends, colleagues, and students as well as to the reviewers who have expressed their approval of the first edition and who have given us valuable input on how the revision could best be structured. Perhaps the first thing that the reader will notice about the second edition is that it is more extensive than the first. The volume currently has 41 chapters in contrast to the 31 chapters that comprised the earlier version. Chapters 3, 9, 29, and 30 of the first edition either have been dropped or were combined, whereas 14 new chapters have been added. In effect, we are gratified in being able to reflect the continued growth of behavior therapy in the 1980s. Behavior therapists have addressed an ever-increasing number of disorders and behavioral dysfunctions in an increasing range of populations. The most notable advances are taking place in such areas as cognitive approaches, geriatrics, and behavioral medicine, and also in the treatment of childhood disorders.

**Human Sexuality** Ollie Pocs, 1982     Human Sexual Behaviour Maurice Philip Feldman, Malcolm John MacCulloch, 1980     **Medical Aspects of Human Sexuality**, 1983     Human Sexuality William H. Masters, Virginia E. Johnson, Robert C. Kolodny, 1992. Cited in BCL3. A comprehensive textbook that examines sexuality from biological, psychosocial, behavioral, clinical, and cultural perspectives. This edition is substantially revised and thoroughly updated. It also adds extensive use of color throughout. Annotation copyright by Book News Inc, Portland, OR.

**Sexology**, 1979     *Sex and Sexuality* Maurice Philip Feldman, 1987     **Human Autoerotic Practices** Manfred F. DeMartino, 1979. Although scores of books and hundreds of articles have been written on the subject of autoeroticism or masturbation, none of them has been definitive. Manfred DeMartino has now provided us with a definitive work on the subject. As author and compiler, DeMartino has gone through the existing significant information in this area, extracting almost all the really important papers and chapters that have so far been published on autoeroticism, and has beautifully woven them into a comprehensive volume. He has omitted virtually no notable aspect of this topic and has managed to include a marvelously representative selection of papers by an imposing array of authorities. Foreword.

Frigidity; Dynamics and Treatment Fritz Kant, 1969     **Understanding Our Sexuality** Bryan Strong, Christine DeVault, 1988     **Handbook of Behavior Therapy with Sexual Problems** Joel Fischer, 1977     The Gay Report Karla Jay, Allen Young, 1979. The Gay Report contains the results of the first comprehensive survey of the homosexual community. In 1977, Karla Jay and Allen Young distributed several hundred thousand copies of their survey to lesbians and gay men. Over five thousand of them, between the ages of fourteen and eighty-two, from all over the United States and Canada, filled out the extensive questionnaires about their lifestyles and sexual experiences. This book tells what they said. Publisher's description.
