

'Kodak' S-AV Programmable Dissolve Control

The 'Kodak' S-AV Programmable Dissolve Control is a digital dissolve unit controlled by a microprocessor. It was developed for use with two-projector slide sound shows and there is a lot more to it than its compact form would suggest.

The meaning and effectiveness of a slide sound show can be increased significantly by using this unit. The change from one slide to the next gives many choices: cut, dissolve (with five dissolve time settings), superimpose, animation, flash, freeze, swing effects. It is possible to combine any of these effects in any order.

A lot of thought has been put into the development of this good value unit, enabling all these visual effects to be carried out quickly and easily. This, in turn, has a beneficial effect on the cost of making a slide sound show.

A summary of technical details can be found on the back of this sheet.

KODAK is a registered name.
