Nelson-Atkins
Museum
of Art**

Since before the founding of our nation, American artists have sought to represent the events, identities, and experiences of their own times. Often their works also served to shape perceptions and opinions among the American public. Exploring American art gives students of today the chance to consider the interdependent relationship between artists and their historical contexts while also experiencing the way art can reach across time and move us in the present.

American art is as varied and wide-ranging as Americans themselves. The Nelson-Atkins Museum of Art's collection of American art includes paintings, sculpture, and works on paper made in the United States from the 18th century through World War II. Photographs, decorative art objects, and works by modern, contemporary, and Native American artists serve to further illuminate American experiences from a variety of historical moments and viewpoints.

Look inside for background information about American art at the Nelson-Atkins, questions and activities to engage your students both at the museum and in the classroom, and suggestions for where to learn more.
