Enriched as well with vivid biographies and brilliant personal essays written by and about people who play an important role in our tradition, this extraordinary collection of essays is fittingly dedicated to the memory of Chandler Davis, Reuben Hersh, and Yuri Manin. Barry Mazur, Gerhard Gade, University Professor, Harvard University. This encyclopedic Handbook will be a treat for all those interested in the history and philosophy of mathematics. Whether one is interested in individuals from Pythagoras through Newton and Leibniz to Grothendieck, fields, geometry, algebra, number theory, logic, probability, analysis, viewpoints from Platonism to Intuitionism, or methods, proof, experiment, computer assistance, the reader will find a multitude of chapters that inform and fascinate. John Stillwell, Emeritus Professor of Mathematics, University of San Francisco. Recipient of the 2005 Chauvenet Prize. Dedicating a volume to the memory of three mathematicians, Chandler Davis, Reuben Hersh, and Yuri Manin, who went out of their way to show to a broader audience that mathematics is more than what they might think is an excellent initiative. Gathering authors coming from many different backgrounds but who are very strict about the essays they write was successfully achieved by the editor in chief. The result, a great source of potential inspiration. Jean Pierre Bourguignon, Nicolaas Kuiper, Honorary Professor at the Institut des Hautes études Scientifiques.

[Inclusion in the American Military](#)

Morten G. Ender, Ryan Kelty, David E. Rohall, Michael D. Matthews, 2023-10-30. The US military is one of the largest employers in the country and is a relative microcosm of American society, bringing in people from diverse backgrounds and history to defend the nation from all enemies. Military and civilian leaders address the same challenges as those found in the civilian world, including diversity, inclusion, equity, and belonging. The US military has both led and followed the nation in establishing policies of diversity and inclusion. In this second edition, the editors and contributors provide a revised, updated, and expanded overview of the ways in which diversity and inclusion are dispatched in the US military by providing information and knowledge about celebrated and contested social characteristics, including race, ethnicity, religion, gender, and sexuality, and three new groups comprising the military: the disabled, civilians, and immigrants. Astute subject matter experts contribute contemporary must-have go-to chapters into a fresh, compelling, and insightful volume on the roles that each of these groups occupy in the US armed services, as well as the laws, rules, and regulations regarding their participation. This new edition also provides eleven Lived Experiences that enliven and humanize each chapter and will assuredly inspire readers.
