Island Home Lesson Plans Katie Morag:

Teaching Across the Early Years 3-7 Hilary Cooper, Chris Sixsmith, 2004-11-23 This practical and accessible book explores ways of developing continuity and coherence in children's learning from three to seven years old. It is based around three case studies in which tutors on Initial Teacher Training courses worked with early years practitioners in three different pre-school settings each linked to a primary school. The book describes how they successfully managed to plan and teach integrated themes across the age range in the context of the requirements of the Foundation Stage and the National Curriculum. Each case study has a different focus: science, design and technology, the arts, including an ICT strand, the humanities, including a physical education strand. English and mathematics dimensions run through each theme. The book is alive with discussion of children's art, language, drama and music, captured as field notes, writing, drawing and as video tape. Each chapter concludes with suggestions of ways in which readers can develop the ideas in their own contexts. This book will be invaluable reading for students on Early Years courses, Early Years practitioners and tutors and mentors in early childhood education.

Thinking Skills - Geography and Sustainable Development Patricia Kendell, 2016-06-15 Thinking skills are a key feature of learning. These brilliant titles in the series will help you develop intellectual skills in children such as reasoning and enquiry, information processing, creative thinking and evaluation skills. *Thinking Skills Geography and Sustainable Development* provides lesson plans on how to use the thinking skills outlined in the National Curriculum to address the geography objectives and sustainable development concepts for KS1 and KS2. Lessons include The seaside, Land use, Waste and recycling, Traffic issues, River pollution, Coastal erosion, Tourism.

Geography in the Early Years Joanna Birch, Joy Palmer, 2004-09-09 This completely revised and updated second edition of *Geography in the Early Years* presents a lively and comprehensive overview of teaching and learning in geography. Theoretical aspects of early years teaching in geography are complemented by up-to-date research findings and illustrated with discussion, a wealth of case studies and suggestions for the development and implementation of sound geographical work in practice. In a practitioner-friendly style, this book provides an examination of the essence of geography in terms of children's conceptions of the physical environment, a detailed description of geography in the national curriculum and of the place and nature of environmental education within early years teaching guidelines, for taking a whole-school approach in policy planning and organisation of geographical learning, examples of initial teacher training and continuing professional developments. This highly accessible, illuminating book will be immensely helpful to teachers, student teachers, policy makers and all other providers of education for children aged three to seven years.

Children's Books and Their Creators Anita Silvey, 1995 Unique in its coverage of contemporary American children's literature, this timely single-volume reference covers the books our children are or should be reading now, from board books to young adult novels. Enriched with dozens of color illustrations and the voices of authors and illustrators themselves, it is a cornucopia of delight. 23 color, 153 b/w illustrations.

Inviting Writing Adam

Bushnell,David Waugh,2017-02-27 With recent research findings by The National Literacy Trust indicating that 1 in 2 children enjoy writing should primary school teachers be using it more There are opportunities for teaching and learning writing in all subjects and all lessons Inviting Writing supports you to find these opportunities and to plan assess and develop children s writing for a range of purposes in a range of styles Chapters cover every curriculum subject and explore the unique writing opportunities for each one It helps you to focus on teaching the skills of composition and on taking writing forward Examples of good practice are included throughout alongside suggestions for teaching activities This book also outlines the many ways in which children s writing can be evidenced and encourages you to reconsider the ways in which children s progress in writing can be tracked and captured This is a practical guide to teaching writing across the curriculum

Teaching Primary Geography Simon Catling,Tessa Willy,2010-07-21 Written with reference to the 2007 Professional Standards for the Award of QTS and initiatives such as the Primary National Strategy each chapter offers practical guidance on topics such as planning assessment and the creation of resources It provides summaries of key topics in primary geography including the study of places environmental sustainability learning beyond the classroom global issues citizenship and cross curricular approaches to promote children s subject knowledge well being and learning within primary geography With research summaries practical and reflective tasks and classroom examples this book helps trainees and NQTs teach primary geography confidently and creatively throughout the primary school
