Iso 14001 Guidance Manual:

ISO 14001 Guidance Manual Raymond Martin, 1998 An ISO 14001 environmental management system is meant to develop a systematic management approach to the environmental concerns of an organization The goal of this approach is continual improvement in environmental management This manual will assist organizations in the development of an Environmental Management System EMS that is consistent with the ISO 14001 Standard achieves EMS Registration and improves the overall environmental performance of the organization Because each organization is different NCEDR has created a document that is specific enough to set up and implement an EMS but general enough to allow the flexibility for addressing unique characteristics The various sections of the manual describe each element of the ISO 14001 standard and provide step by step procedures and tips for developing and implementing an EMS

Guidelines for Auditing Process Safety Management Systems CCPS (Center for Chemical Process Safety), 2011-11-30 This book discusses the fundamental skills techniques and tools of auditing and the characteristics of a good process safety management system A variety of approaches are given so the reader can select the best methodology for a given audit This book updates the original CCPS Auditing Guideline project since the implementation of OSHA PSM regulation and is accompanied by an online download featuring checklists for both the audit program and the audit itself This package offers a vital resource for process safety and process development personnel as well as related professionals like insurers
