We lose that spark as we get older. Studies, career, job, family, parents, societal expectations, the list is endless. We invariably get into a cycle of "Let me plan for this some other time, a time that never seems to come." I was stuck in a similar cycle where my career and family were taking a lot of my time, where I had buried my adventurous spirit for a long time. It was not until I had the opportunity to spend time with and observe a few people who really knew how to live in the moment and soak up everything life has to offer. Not that they did not have responsibilities and priorities like everyone else; they made nurturing their adventurous spirit a focus. That was when I decided to embark on my adventure, too, my love for trekking and climbing. In 2019 I went on my first Himalayan adventure to the Everest Base Camp. As they say, the mountain has a way of luring you back. Lo and behold, I was back in 2021 with a different journey to a higher mountain, Mera Peak. Mera, in Hindi, quite literally translates to "My." In some sense, it was My peak that I had chosen to climb, and hence the title Mera Trek, Mera Peak. You could translate it as My trek, Mera Peak OR My trek, My Peak. I hope this chronicle of my journey inspires you to rekindle your spirit for adventure and motivates you to embark on your own journey as well. **The Geographical Magazine**, 1986 **International Symposium on Engineering Geology, Hydrogeology, and Natural Disasters with Emphasis on Asia :28-30 September 1999, Kathmandu, Nepal**, 2000 **San Francisco**, 1977 *Islands in the Snow* Mark Horrell, 2011-10-29 Two days east of Lukla was a pleasant yak pasture surrounded by high peaks. When Col Jim Roberts set out to look for it in 1953, he ended up making the first ascent of Mera Peak and sowing the seeds of Himalayan tourism. Mera Peak has become a popular goal for trekkers and novice mountaineers, but few people

climb to its true summit and fewer still travel beyond it to find the secret yak pasture that sparked Roberts journey The yak pasture was the Hongu Valley a hidden sanctuary of grassland lakes and glaciers linking Mera Peak with the Everest region and Island Peak to the north Fifty years after Roberts Mark Horrell embarked on a trek through Nepal s Khumbu region to follow in his footsteps climb the two trekking peaks at either end of the valley and resolve a long standing mystery about Mera Peak s height Join Mark on a captivating journey through this enchanting region of high mountains and remote valleys
