Monnaies Globalisation Financiere Collectif Aef

Jean-Pierre Allegret

Monnaies Globalisation Financiere Collectif Aef:

Monnaies et globalisation financière Ouvrage Collectif, 2015-10-16 L'importance prise par les pays émergents dans les échanges mondiaux de marchandises depuis une trentaine d'années a transformé le système monétaire international. Des flux de capitaux considérables se déplacent entre pays développés et émergents menaçant ainsi la stabilité financière. Les déséquilibres de balances des paiements ont été la source de plusieurs crises financières et ont joué leur rôle dans celle de 2008. De surcroît les politiques monétaires menées par les banques centrales depuis 2009 et en particulier aux États-Unis ont alimenté les craintes d'une guerre des monnaies. Alors qu'à l'automne 2015 le grand jeu des devises est en pleine évolution la Revue d'économie financière entend dresser un état des lieux de la situation actuelle et avancer des solutions. Le dollar est-il menacé ? Quels sont les rapports de force ? Quels sont les arrangements institutionnels capables d'assurer une stabilité financière mondiale ? Telles sont les questions sur lesquelles se sont penchés les auteurs universitaires, banquiers et hauts fonctionnaires. En plus de ce thème principal ce numéro propose deux articles sur différents sujets de l'actualité économique et financière l'un qui présente différentes analyses du secret bancaire et de sa fin probable dans les centres financiers offshore l'autre qui pose la question de la crédibilité des banques centrales suite à leurs nouvelles pratiques induites par la crise financière.

Monnaies, finance et mondialisation Jean-Pierre Allegret, 2008 Cet ouvrage traite les questions liées au financement de l'économie internationale le fonctionnement du marché des changes la détermination des taux de change et l'évolution du système monétaire international. Une attention particulière est portée sur les caractéristiques de l'intégration financière internationale sur les crises financières dans les marchés émergents ainsi que sur la question du régime de change dans une économie davantage mondialisée. L'objectif est de permettre la maîtrise des aspects techniques empiriques et théoriques liés à l'économie monétaire et financière internationale. En plus de l'actualisation des données empiriques cette nouvelle édition approfondit l'analyse des liens entre ouverture financière et croissance dans les marchés émergents. La mondialisation des banques l'intensification de l'intégration financière internationale l'internationalisation de l'euro et la réforme du Fonds monétaire international font l'objet de développements particuliers. Cet ouvrage s'adresse aux étudiants de premier cycle universitaire économie gestion sciences économiques AES de DUT écoles de commerce et d'IUP II sera utile aux candidats aux concours de la fonction publique et de l'enseignement CAPES CAPET agrégation ainsi qu'aux étudiants de formation professionnelle et continue dans le domaine bancaire et financier. En un minimum de temps il permet de comprendre l'essentiel des mécanismes monétaires et financiers internationaux d'assimiler les principaux défis auxquels sont confrontés les États dans le contexte de la globalisation financière en privilégiant une approche à la fois théorique et empirique de mémoriser les notions fondamentales et de contrôler l'acquisition des connaissances avec des questions choix multiples et leurs corrigés d'appliquer les règles de méthodologie des preuves de dissertation en s'entraînant avec des sujets donnant lieu à correction complète.

Monnaie et Citoyenneté Virgile Perret, 2015 À partir d'une approche qui combine les apports de l'économie politique internationale et de l'école de la r

gulation l'ouvrage analyse les relations entre la monnaie et la citoyenneté et leur transformation dans le contexte du système monétaire de Bretton Woods 1944 et du développement de la globalisation financière depuis les années 1970

Globalisation financière et risque de système Michel Aglietta, Anton Brender, 1989
