TIPS ON ACING THAT TEST

Written by Mrs. Olivia Wilson

A newsletter is a great way to keep the students, faculty, parents, and guardians abreast of what's happening in your school. It's an effective way of disseminating information and touching base with all the parties mentioned.

The value of the newsletter, however, lies in its creation. First, it needs to have strong visual impact so that its receivers will want to read it.

WHAT'S IN THIS MONTH'S ISSUE:

- Tips On Acing That Test
- Upcoming Events

Second, it needs to be planned, organized and put together well so that its content interests and engages its target audience.

When creating a newsletter for a Primary School setting, consider your target audience. Make sure your first page can really catch their eye. Include photos and articles that are related to the school, such as recent events, sports activities, and more.

Resources in Education ,1995 **Alternative Schools in British Columbia 1960-1975** Harley

Rothstein,2024-07-18 The tumultuous 1960s was an era of the counterculture political activism and resistance to authority. Conventions and values were challenged and new approaches to education captured the imaginations of parents, teachers, and students. Reacting against the one size fits all nature of the traditional public school system, groups of parents and teachers in Canada and the United States established alternative schools or free schools based on the Progressive child-centred philosophy of John Dewey and the Romantic ideas of Summerhill founder A S Neill. In *Alternative Schools in British Columbia 1960-1975* Harley Rothstein tells the story of ten such schools that arose in the province of British Columbia. Drawing on 350 self-conducted interviews, newspaper articles, personal journals, and school records, Dr Rothstein invites readers to experience the early days of alternative schools. He describes the educational philosophy, curriculum, and governance of these institutions and introduces readers to the people who were at the heart of alternative communities. Tracing the evolution, successes, and challenges of each school, he presents the day-to-day experience and brings to life the ethos of the 1960s era. Historians, educators, and all curious readers will become immersed in this engaging account of a group of educational pioneers on Canada's west coast and how they inspired the liberalization of the public school system that would come in the 1970s.

Diverse Families, Desirable Schools Mira Debs,2021-03-09 In *Diverse Families, Desirable Schools* Mira Debs offers a richly detailed study of public Montessori schools, which make up the largest group of progressive schools in the public sector. As public Montessori schools expand rapidly as alternatives to traditional public schools, the story of these schools, Debs points out, is a microcosm of the broader conflicts around public school choice. Drawing on historical research, interviews with public Montessori educators, and ethnographic case studies, Debs explores the forces that pull intentionally diverse progressive schools toward elitism. At the heart of Debs's book is a thoughtful analysis of the notion of fit between parents and schools, an idea that is central to school choice, which is often marketed as an opportunity for parents to find the perfect fit for their kids. By exploring parents' varied motivations in choosing these schools and observing how families experience or fail to experience a good fit after having chosen a particular school, Debs makes an original contribution to the literature on school choice and sheds light on the dilemmas entailed in maintaining diversity in progressive charter and magnet schools.
