Is There A God Book:

Is There a God? Richard Swinburne, 2010-01-07 Is There a God offers a powerful response to modern doubts about the existence of God. It may seem today that the answers to all fundamental questions lie in the province of science and that the scientific advances of the twentieth century leave little room for God. Cosmologists have rolled back their theories to the moment of the Big Bang; the discovery of DNA reveals the key to life; the theory of evolution explains the development of life; and with each new discovery or development it seems that we are closer to a complete understanding of how things are. For many people this gives strength to the belief that God is not needed to explain the universe; that religious belief is not based on reason and that the existence of God is intellectually a lost cause. Richard Swinburne, one of the most distinguished philosophers of religion of our day, argues that on the contrary science provides good grounds for belief in God. Why is there a universe at all? Why is there any life on Earth? How is it that discoverable scientific laws operate in the universe? Professor Swinburne uses the methods of scientific reasoning to argue that the best answers to these questions are given by the existence of God. The picture of the universe that science gives us is completed by God. This new updated edition of Richard Swinburne's popular introductory book *Is There a God* features two substantial changes. He presents a new stronger argument why theism does and materialism does not provide a very simple ultimate explanation of the world. And he examines the idea of the possible existence of many other universes and its relevance to his arguments from the fine tuning of our universe to the existence of God.

The God Book Rabbi Jack Abramowitz, 2017-01-18 From angels and the afterlife to suffering and Divine providence *The God Book* addresses all things spiritual through classic works of Jewish philosophy. Works summarized include the Rambam's *Moreh Nevuchim* Guide for the Perplexed, Ramchal's *Derech Hashem* Way of God, ibn Pakudas *Chovos HaLevavos* Duties of the Heart and Hilchos Deios from the Rambam's *Mishneh Torah*.

The God Book Prem Raja Baba, 1998 First let go of your beliefs that there is only one God. Next let go of all your beliefs of what a God is supposed to be. Finally Embrace the truth that you are a God. That we are all Gods. A God can be whatever it wants to be from a helpless human to a master of the universe. It is your choice. Embrace your power. Retake your power and authority. One single document in this book can liberate you from the control and dominance from other beings. Others that you may have given this authority and power lifetimes ago. Once you sign this document you will be free. The next step is remembering how to exercise your powers. Gods do it by making commands and laws. This book shows you how to in a simple and easy manner.
