Istanbul Byzantine And Ottoman Artefacts:

Sultanahmet, Istanbul's Historic Peninsula Pinar Aykaç, 2022-01-05 This book explores how the museum concept has expanded beyond the boundaries of a single building into the historic city itself through musealization Articulating the musealization of historic cities as a specific urban process the book here presents a study of the transformation of the Sultanahmet district on Istanbul's historic peninsula which has been the major focus of planning conservation and museological studies in Turkey since the 19th century as the public face of the city The author aims to offer empirically grounded and context specific insight into the role of museums in the regeneration of historic cities Musealization as an urban process varies in different geographical cultural and ideological contexts and across different time periods By discussing the Sultanahmet district as a specific context of yet another city subjected to the musealization process this book provides further insights into this important global phenomenon *Flashpoint Hagia Sophia* Brian Croke, 2021-12-30 Istanbul's Hagia Sophia Holy Wisdom or Ayasofya is one of the world's most visited buildings Yet few visitors have any idea of its long and complex story or why it has always been a place where history religion and politics collide In July 2020 Turkish President Erdoğan set off an explosive controversy by announcing that Hagia Sophia would now be modified into a mosque This decision provoked fierce criticism from UNESCO because Hagia Sophia was enjoying World Heritage Site benefits The United States the European Union Russia and Greece all chimed in However Erdoğan's action was wildly popular in Turkey with its 99% Muslim population Why is Hagia Sophia so important to modern Turkey Why this provocative decision and why now How could all the international critics be ignored Why does the world care so much about this old building Why should it continue to care This book explains President Erdoğan's controversial decision in terms of Turkey's national independent and Islamic politics and as a response to the mosque massacre in Christchurch in March 2019 when his life was threatened by the gunman Any consideration of Hagia Sophia's present and future also requires appreciation of the almost 1 500 year old story of this architectural marvel from its inception as a church in 537 to its configuration as a mosque in 2020 and beyond Because all world heritage sites depend on national management Hagia Sophia will remain Turkey's responsibility but the international community is watching to ensure Turkey honours Hagia Sophia's entire heritage from the 6th century to the 21st century *Art and AsiaPacific*, 2006 Bibliography of Art and Architecture in the Islamic World (2 vols.) Susan Sinclair, 2012-04-03 Following the tradition and style of the acclaimed Index Islamicus the editors have created this new Bibliography of Art and Architecture in the Islamic World The editors have surveyed and annotated a wide range of books and articles from collected volumes and journals published in all European languages except Turkish between 1906 and 2011 This comprehensive bibliography is an indispensable tool for everyone involved in the study of material culture in Muslim societies **Art & Antiques**, 1993 *The Art and Architecture of Turkey* Ekrem Akurgal, 1980 **The Palgrave Handbook of Literature and the City** Jeremy Tambling, 2017-02-17 This book is about the impact of literature upon cities

world wide and cities upon literature It examines why the city matters so much to contemporary critical theory and why it has inspired so many forms of writing which have attempted to deal with its challenges to think about it and to represent it Gathering together 40 contributors who look at different modes of writing and film making in throughout the world this handbook asks how the modern city has engendered so much theoretical consideration and looks at cities and their literature from China to Peru from New York to Paris from London to Kinshasa It looks at some of the ways in which modern cities whether capitals shanty towns industrial or rust belt have forced themselves on people s ways of thinking and writing
